Amendment 002 has been raised to modify the Request for Proposal (RFP) and publish all answers to questions received to-date.

## **A. QUESTIONS AND ANSWERS**

- Q16.** The subject tender states that the weight is to be measured with the battery installed and all attachments (Annex A - 4.2.1). Can you please clarify what are considered 'attachments'? For example, if our system uses a 'detachable display' (as per Annex A, 3.5), is that included in the system weight? What about other accessories, such as a shoulder strap, tablet mounting kit for the 'detachable display', and cables to connect the display to the HB System?
- A16.** If the HB X-Ray system uses a detachable display, the following components and attachments will contribute to the weight of the system: system itself, installed battery, detachable display with means of attachment and cables to connect the display (unless wireless connection is possible). The goal is to determine the weight of the HB X-Ray system with a "screen on the unit" configuration when used by a single user. Shoulder strap is not included in the "system weight" measurements.
- Q17.** Attachment 2 to Part 4 includes the prorated points assigned for radiation dose to the operator, however there is no minimum performance listed for either the hand dose or chest dose. Therefore the pro-rating process formula (Attachment 3 to Part 4) cannot calculate the score with no minimum performance metric (as per step 3). What will Canada use as the mandatory minimum performance to calculate bidder scores? And will Canada use different minimum performances for both hand dose rate and chest dose rate?
- A17.** Canada will use different minimum performances for hand and chest dose rates. The maximum dose rate (minimum performance) to the chest is 5 µSv/h as stated in Annex A, Section 5.6.1. The maximum dose rate (minimum performance) to the hand is 20 µSv/h. Please see modification to section 5.6.1 and Attachment 2 to Part 4, detailed in section B herein.
- Q18.** We've been going through the pricing tables included in the RFQ, and noticed a number of discrepancies between Annex C - Basis of Payment and Attachment 4 to Part 4 - Pricing Schedule.
1. Basis of Payment 2.1 describes a "five-year" option period, with five pricing fields to complete, however the Pricing Schedule has ten fields for ten one-year periods.
  2. Basis of Payment 2.2 has eleven fields for the replacement parts discount (as this includes the initial contract year), however the Pricing Schedule only has ten fields.
  3. Basis of Payment 3.1 has five fields for the additional HB Systems, however the Pricing Schedule has six fields (as it seems to include the initial contract year as an option)
- A18.** Please see revisions to **ANNEX C – BASIS OF PAYMENT** and **ATTACHMENT 4 to PART 4 – PRICING SCHEDULE** detailed in section B herein.

## **B. RFP MODIFICATIONS**

- B1.** At **ANNEX A – STATEMENT OF WORK**, delete section 5.6.1 in its entirety and replace with the following:
- "5.6.1 The dose received by an operator of the HB X-Ray system must not exceed 5 µSv/h microsieverts per hour (instantaneous) to the chest (0.5 m offset) and 20 µSv/h microsieverts per hour (instantaneous) to the hand, in accordance with the testing procedures outlined in ATTACHMENT 1 TO PART 4 OF THE BID SOLICITATION, Technical Bid Submission Document, M.2 Radiation Dose."

**\*Represents the initial 1-year Warranty coverage included with each system purchased.**

**4.0 Quarterly Payment Calculations**

- Q1 (April 1<sup>st</sup> to June 30<sup>th</sup>)
- Q2 (July 1<sup>st</sup> to Sept. 30<sup>th</sup>)
- Q3 (Oct. 1<sup>st</sup> to Dec. 31<sup>st</sup>)
- Q4 (Jan. 1<sup>st</sup> to Mar. 31<sup>st</sup>)

**1. The Quarterly Payment Amount shall be determined by dividing the amount shown in Table 3.0, section 3.3 divided by four.**

**2. If the system does not meet the maintenance service metrics defined in ANNEX A – STATEMENT OF WORK, sub-article 8.7, the Contractor will be paid a revised payment amount, in accordance with the following:**

$$\text{Quarterly Payment Amount} = (\$ \text{ Quarterly Payment Amount}) \times (\text{A Score}) \times (\text{B Score})$$

Failure to meet the maintenance service metrics defined in this ANNEX and as set out in Sub Article 8.14 of ANNEX A will result in liquidated damages that will reduce the price payable, i.e. a reduced payment amount, in accordance with the following:

**Table 1 – Availability (A) Scores**

Measured Availability Quarterly (3 month closed)	A Score
90% ≤ X	1
80% ≤ X < 90%	0.9
70% ≤ X < 80%	0.8
*60% ≤ X < 70%	0.7

**Table 2 – Mean time to repair (MTTR) - B Score**

Mean Time To Repair (MTTR)	B Score
36 hrs ≥ X	1
48 hrs ≥ X ≥ 36 hrs	0.99
72 hrs ≥ X ≥ 48 hrs	0.98
96 hrs ≥ X ≥ 72 hrs	0.97

\*The Measured Individual System Availability will be calculated to a precision of 2 decimal points.
