Solicitation No. - N° Sollicitation E60PD-19PAPR/B	Amd/Amend 04	Buyer - Id de l'acheteur Pd150
File No. - N° du dossier E60PD-19PAPR		Client Ref. No. - N° de ref. du client

***This amendment is raised to answer questions raised by the Industry:***

- 1. Answer questions raised by the Industry;**
- 2. Modify Annex A- Statement of Requirement, article 8. Technical Performance Tables, table 2 High Runnability White, Grammage.**

\*\*\*\*\*

- 1. Answer questions raised by the Industry;**

**Question 001:**

We have a question regarding this solicitation:

As mentioned in Annex A 2.3 coverstock is exempt from UL-2771 requirements. How do we complete Appendix 2-Certification of Conformity? Do we leave the lines blank or NA for meets UL-2771 and the load points?

Also confirming that other than meeting paper property requirements, Annex A does not need to be addressed under 6.1-6.5 for coverstock.

**Answer 001:**

As the coverstock paper is exempt from UL-2771 requirements, Offerors may enter N/A for lines "Meets UL-2771 (Technical)" and "UL-2771 Load points" in Appendix 2- Certification of Conformity.

Also, requirements in Annex A, article 6.1-6.5 do not need to be addressed for coverstock paper.

**Question 002:**

We do have another question as a result of the latest amendment.

Based on modifications to Annex A, Article 8 in Amendment 002, the grammage for the high runnability white has changed significantly and would eliminate paper(s) currently used by Canada. Is there a specific reason that Canada is changing this specification to disallow paper(s) currently/previously being supplied?

**Answer 002:**

PSPC had made modifications to the Grammage in amendment 002 in order to remove discrepancies with regards to the requested High Runnability White paper (24 lbs- 28 lbs). PSPC has verified the Grammage of the high runnability paper (24 lbs- 28 lbs) that is on the existing Standing Offers and modifications to the GSM has been made in point 2. below.

- 2. Modify Annex A- Statement of Requirement, article 8. Technical Performance Tables, table 2 High Runnability White, Grammage;**

Annex A- Statement of Requirement, article 8. Technical Performance Tables, table 2 High Runnability White, Grammage is here by modified as follow:
