This solicitation amendment 004 is raised to extend the closing date to October 11 and to answer bidder question;

QUESTION 1;

As per newest technical test guideline material tests will be performed as per VPAM PM 2007. A „B6“material will receive a PM7 protection level certificate.
Will such (newest) material test certificate be accepted by the TA?

ANSWER 1;

The vehicles design as procured by GAC must be independently tested and certified to the VR7 standard. Only if the VPAM PM 2007 was part of the VR7 independent testing and certification and reflected in the complete test report will the TA consider it.

All other terms and conditions remain the same.
