ADDENDUM #5

Subject: **Request for Proposals T8080-190125/A
Composite Cylinder Project**

No consideration will be given for extras and/or changes because the tenderer was not familiar with the contents of this Addendum.

The following question has been received from a potential Bidder about the subject Request for Proposals. The purpose of this Addendum to the Request for Proposals is to summarize the question and answer for the information of all potential Bidders.

Question #1

Regarding subject solicitation, 2 or 3 types of cylinders in sufficient numbers are requested to be tested. According to our experiences and PHMSA reports more reliable data will be reached if 3 types of cylinders would be tested.

With respect to clause 4.1.2, financial evaluation, the final offered price depends on the number of total tests. I was wondering how the financial score will be calculated if the bidders offer two types of cylinders or three?

Answer #1

Bidders are required to submit a proposal which is based upon a firm lot price which is not dependent upon the types of cylinders that the Bidder proposes to test. The process for calculating the financial score, as detailed in Article 4.1.2 is independent of the number of types of cylinders.

Question #2

With respect to page 34, clause 4, Item 6. Is there any missed attachment? "attached as attachment A hereto"?

Answer #3

Please see Attachment A below.
