AMENDMENT 001

This amendment 001 is raised to answer questions and to modify the Request for Proposal including the Purchase Description, as follows:

1.0 QUESTIONS / ANSWERS:

Q1. : Are the vehicles being sought COTS, MIL-COTS or military?

A1. : The vehicles sought are Commercial of the Shelf (COTS).

Q2. : What does DND require, gasoline or diesel? If gas, what grade and if diesel, to which standard?

- Page 42 of 55 states Diesel Engine
- Page 43 of 55 states Gasoline Engine under 1.1 scope
- Page 46 of 55 states Diesel under 3.5.1 d)
- Page 54 of 55 states Diesel under 3.5.1 d)

A2. : DND requires a diesel engine and use standard diesel fuel as per local service stations (Diesel #1 or Diesel #2). Page 43 of 55 should read diesel vice gasoline.

Q3. : The engine displacement required is a minimum of 850cc and the minimum capacity is 28 liters. Can I presume that this is very similar to a recreational type product?

A3. : Yes, similar to recreational type product.

Q4. : 4. All of these vehicles will be delivered to military bases in Canada. Will any of these vehicles be deployed for use in theatre? If deployed, would DND reconsidered the diesel type to be used as DND has the authority to seek waivers on this subject?

A4. : These vehicles are not for deployment in theatre.

Q5. : 5. Paint Color is being left to a manufacturer's standard color. As they are being used on DNDs bases, would you not want the color to be standardized on a DND military vehicle color or camo?

A5. : No, a standard color or camo is not a requirement for DND.

Q6. : After this review, what DND seems to be looking for is a UTV and not a LUV. A light utility vehicle would be classified in the range of such brands and the Humvee, Land Rover, Mercedes Benz G wagon, Toyota Land Cruiser and other similar class vehicles.

A6. : DND is looking for a UTV type utility.

Q7. : According to the item 3.5.2 of purchase description of the subject solicitation, the minimum fuel tank capacity must be 28 L (6.1 gal). 6.1 USG is equal to 23 L. Which one is correct?

A7. : 28 L (6.1 Imperial Gallon) is correct. The unit of measure used in Canada for gallon is Imperial Gallon. (6.15 Imperial Gallon = 7.39 USG). 28 L (7.39 USG)

2.0 MODIFICATIONS

At Purchase Description For Light Utility Vehicle, 1.1 Scope, Page 43.

DELETE: In its entirety.

INSERT: 1.1 Scope - This document covers the purchase description of a 4X4, Light, Multipurpose Utility Vehicle, 2 passenger, side by side, diesel vice gasoline engine, as described.

All other terms and conditions remain unchanged.
