ANNEX "A"
STATEMENT OF WORK

Purpose

Environment and Climate Change Canada's (ECCC) Wildlife Enforcement Directorate (WED) requires a contractor to provide a one-stop shop for cartage unpacking/repacking and bonded freezer storage solutions throughout Canada. Items in storage are detained for law enforcement purposes.

Objective:

The Contractor must be able to coordinate the pickup, transportation, unpacking, storage, and destruction of large volumes of frozen goods arriving by air, rail or sea. Storage must be in a controlled environment where access and egress is regulated. ECCC-WED requires a contractor to provide storage services on an as and when requested basis.

Background:

ECCC-WED routinely undertakes international, multi-regional investigations that can result in long-term detentions of large quantities of perishable frozen food stuffs comprised of endangered species. The balance of the detentions occur at ports of entry into the country (ie. Vancouver, Toronto, Montreal, and Halifax). The location of import necessitates the engagement of bonafide, reliable cold storage warehouse services located within the vicinity of the entry point to Canada.

ECCC-WED has criminal and civil liabilities associated with the proper storage of these goods. Detentions are considered evidence and as such require secure bonded warehouses with access and egress being monitored and recorded. The Contractor must be in compliance with the Customs Bonded Warehouses Regulations [Customs Bonded Warehouse Regulations](#). The goods are required to be kept at a constant -18 degrees centigrade so as not to spoil and finally, the goods may require long-term storage to allow for lengthy court proceedings that may exceed two years. ECCC requires storage of several containers up to 40 ft.(2,389 cubic ft) in size that do not arrive at fixed intervals and on short notice. This unpredictability results in multiple shipments of varying sizes, arriving at different locations, and dates throughout the year necessitating long term storage with in-and-out provisions over multiple years.

Geographical Areas:

Only offerors that operate in one or more of the following geographical areas will be considered:

Geographical Area 1:
Vancouver, British Columbia

Geographical Area 2:
Toronto, Ontario

Geographical Area 3:
Montreal, Québec

Geographical Area 4:
Halifax, Nova Scotia

Tasks and Deliverables:

At the direction of an Enforcement Officer employed with ECCC-WED, the Contractor must:

- a. As required, arrange for transportation and attend a port, railyard or aerodrome to retrieve and transport varying sizes of goods up to and including 40 foot sea cargo containers;
- b. De-stuff and palletize all contents;
- c. Electronically itemize each item prior to storage;
- d. Store the goods at -18 degrees Celsius in a secure area in a bonded warehouse;
- e. Maintain access logs;
- f. Arrange for the pickup and disposal of detained goods;
- g. Report all substantial interruptions of the required storage temperature to the Technical Authority immediately; and

Official Language:

The Offeror's representatives must be able to communicate efficiently in English at an advanced level. Refer to Annex I, Advanced Level English Skills Certification.

ANNEX "B"

BASIS OF PAYMENT

In respect of the "Number of Containers" listed in the tables below, the quantity of 1 is for evaluation purposes only during the solicitation process and does not represent the actual quantity required. Environment and Climate Change Canada requires a bonded freezer storage warehouse to store seized items on an as required basis.

Prices for any other associated costs, not listed in Annex B, Basis of Payment will be in accordance with the Contractor's current price list at the time of the service. The Contractor must provide a copy of its current price list to the Project Authority upon contract award and upon updates to the price list.

The Contractor must provide a price for storage, transportation, and loading, shipping and disposal to be considered compliant.
