This amendment is raised to respond to the following questions:

Reference to ANNEX "E" COMPLIANCE MATRIX:

1. Item 6 - Electric Dryer (residential use)

Question:

Based on the voltage you requested and also since you requested for an electric dryer in the next item (item 7: Electric Dryer (residential use), so it seems this item should be gas dryer. If so please let us know the correction. If not, I would like to kindly ask that you also consider a dryer with 240V electrical requirement, because it is not easy to find an electric dryer with 120V of voltage, because these appliances work with electric power supply and they need more voltage rating.

Response:

BATUS requires two different types of electric dryer (110-120V and 230-240). BATUS currently purchases dryers with 120V and they are available on the market. It is not economic to install Gas for dryers.

2. Item 8.5 - Electric Washer, Heavy Duty (Commercial): Min: 1100 washer spin

Question:

You need these appliances to be used for residential usage (but with a commercial grade structure to last long), so you shouldn't pay a price equal to a commercial washer (which is more higher), but you asked for 1,100 RPM and this item will put the washer to an absolute commercial grade (for commercial usage) washer and will increase the price but without an equal increase of benefit for user. So here I would like to kindly ask if you could also evaluate an electric washer with commercial grade structure and maximum 900 RPM of washer spin.

Response:

The Electric washer, Heavy Duty needs to be very robust due to the use. This is the reason behind the specifications. The min specifications ensure the washer meets the robustness required.

3. Item 8.8 and 9.9 and 10.9 - Min 10 Year Warranty

Question: Will you accept the following warranty terms:

All parts and labor warranty for the first year (washer and dryer) and in the second through tenth years warranty for washer on the wash basket drive motor and stainless steel wash basket (side walls only) which does not include labor and for dryer on Drum (Side Walls Only) and Drive Motor (residential / non-commercial usage). If you need all parts and labor warranty for all 10 years, it would increase an unnecessary cost for the end user without a good gain.

Response:

BATUS will accept commercial warranty terms.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
