	<b>QUESTIONS/QUESTIONS</b>	<b>RÉPONSES/ANSWERS</b>
6 (FR)	<p>En regard à la DP4 – Objectifs de projet :</p> <p>À l'article 4.4 Conformité aux codes, il est mentionné que le gérant de construction a la responsabilité de la vérification et de la conformité aux normes, aux codes, aux lois, aux règlements etc.</p> <p>Selon nous, cette responsabilité relève des experts-conseils et non à l'entrepreneur gérant.</p> <p>Nous demandons de modifier cet article.</p>	<p>La liste des normes et règlements à l'annexe A2 constitue une liste non exhaustive des normes et règlements qui s'appliqueront au projet.</p> <p>Le gérant de construction devra donc vérifier et respecter les normes et règlements applicables à ses champs d'expertise.</p>
6 (EN)	<p>In relation to PD4 - Project Objectives:</p> <p>Section 4.4 Code Compliance states that the construction manager is responsible for auditing and complying with standards, codes, laws, regulations, etc.</p> <p>In our view, this responsibility rests with the consultants and not with the managing contractor.</p> <p>We are asking for this article to be amended.</p>	<p>The list of standards and regulations in Appendix A2 is a non-exhaustive list of standards and regulations that will apply to the project.</p> <p>The construction manager will therefore have to verify and comply with the standards and regulations applicable to his fields of expertise.</p>
7 (FR)	<p><b>À la partie 2.3 CRITÈRE TECHNIQUE 3 – Compréhension du projet</b></p> <p>Il est demandé la description des principaux objectifs du projet, y compris les exigences fonctionnelles et techniques des utilisateurs clients. Or, nous ne trouvons pas lesdites exigences fonctionnelles et techniques des utilisateurs dans le document de demande de proposition (DDP).</p>	<p>Le programme fonctionnel et technique des besoins, qui représentera le document de référence de base pour la conception et la construction, est en cours de préparation et</p>

	<p><b>Question :</b></p> <p>Pouvez-vous svp nous les transmettre ?</p>	<p>sera remis au proposant retenu.</p> <p>Le critère technique coté 3 – Compréhension du projet est révisé dans la présente modification pour retirer les mentions des exigences fonctionnelles et techniques.</p>
7 (EN)	<p><b>In Part 2.3 TECHNICAL CRITERION 3 - Understanding of the Project</b></p> <p>The description of the main objectives of the project is requested, including the functional and technical requirements of the client users. However, we do not find these functional and technical user requirements in the Request for Proposal (RFP) document.</p> <p><b>Question:</b></p> <p>Can you please send them to us?</p>	<p>The functional and technical requirements program, which will represent the basic reference document for design and construction, is being prepared and will be provided to the successful proponent.</p> <p>The Technical Rated Criterion 3 – Understanding of the Project is revised in this amendment to remove references to functional and technical requirements.</p>
8 (FR)	<p><b>IP 18 Garantie contractuelle – Obligation de déposer une attestation de garantie contractuelle</b></p> <p>Nous devons joindre à notre soumission un cautionnement de soumission, lequel comprend l'engagement de fournir le cautionnement d'exécution et pour le paiement de la main-d'œuvre et des matériaux, soit :</p> <ul style="list-style-type: none"><li><i>2. fournit un cautionnement d'exécution et un cautionnement pour le paiement de la main-d'œuvre et des matériaux d'une valeur nominale respective de 50 % de la valeur du contrat, à la satisfaction de la Couronne, ou toute autre garantie acceptable par la Couronne;</i></li></ul> <p>Compte tenu des informations comprises dans le cautionnement de soumission, est-il toujours nécessaire de déposer une attestation démontrant sa capacité à obtenir une garantie contractuelle comme exigé à IP 18 ?</p>	Oui.
