Questions and Answers

Question #1:

Can PSPC please provide the previous consultant's reports for the site that would contain recent laboratory analytical information for all the areas to be excavated. This relates to health and safety considerations.

Answer #1:

Please see the report titled *Supplemental Environmental Investigation and Post-Remedial Monitoring, K19 Trutch Former Townsite, Alaska Highway, Northern BC* (Golder, 2018) for results associated with AECs 1F and 19A. Please see the report titled *Supplementary Report on Environmental Investigation, K19 Trutch Former Townsite, Alaska Highway, Northern BC* (Golder, 2017) for results associated with AEC 1A, AEC 1E, AEC 2B, AEC 19A, AEC 23B, AEC 2A, and AEC 23 A. Please see the report titled *Confirmation of Remediation K19 Trutch Former Townsite, Alaska Highway, Northern BC Remedial Excavation 1B and 1C* (Golder 2018) for results associated with AEC 1C.

Question #2:

Please provide previous report's on the site that provide information on groundwater contamination analyticals, groundwater depths and groundwater flow.

Answer #2:

Please see the report titled *Supplementary Report on Environmental Investigation, K19 Trutch Former Townsite, Alaska Highway, Northern BC* (Golder, 2017). The Remedial Action Plan included in Appendix B of the Tender Package indicated that no groundwater infiltration was observed during the remediation of AECs 1B and 1C.

Question #3:

Can PSPC clarify what is meant by there being no pre-existing arrangements for access to the work site. What have been the access arrangements for previous work at the site? Please provide the contact information for all the applicable neighbours.

Answer #3:

No access arrangements were required for previous work at the site. PSPC does not have the contact information for the neighbouring landowners. It is the Contractor's responsibility to maintain access to the site during remediation, which includes snow clearing, and associated winter road maintenance.

Question #4:

In the specifications the classes of soil based on environmental quality are listed as: Hazardous Waste Quality; Waste Quality; and Non-Contaminated Quality (01 11 00, 1.4.1.3). There is no indication of "Commercial Quality" yet this term is

used in the price form. Also, there is no Non-Contaminated Quality item within the price form – should there be a cost item? Please clarify.

Answer #4:

Commercial Quality: material that exceed the British Columbia Contaminated Sites Regulation Schedule 3.1 wildlands reverted (WLR) standards but does not exceed the British Columbia Contaminated Sites Regulation Schedule 3.1 commercial land use (CL) standards.

Question #5:

We note on the bid sheet there is no item for transport of Contaminated Material- Commercial Quality. Please clarify.

Answer #5:

Please see the revised Unit Price Table.

Question #6:

We note the quantity of backfill to be imported is much larger than the amount of soil to be removed from the site? What is to be done with the additional backfill?

Answer #6:

The additional backfill is to be placed and compacted in the open excavation of AEC 1C.

Question #7:

We request a one week extension to the RFP closing date to prepare a competitive proposal for PSPC.

Answer #7:

Extension will be granted to October 25, 2019.

Appendix 1 - Combined Price Form

Delete: in its entirety

Insert:

Previously issued Appendix 1 Combined Price Form is now replaced with **APPENDIX 1 - Combined Price Form - dated 10-16-2019.**

The revised **APPENDIX 1 - Combined Price Form – dated 10-16-2019** must be used when submitting your bid. Any bid submitted on a previous version of the Bid and Acceptance Form will be considered non-compliant and therefore disqualified.

APPENDIX 1 - COMBINED PRICE FORM – dated 10-16-2019

- 1) The prices per unit will govern in establishing the Total Extended Amount. Any arithmetical errors in this Appendix will be corrected by Canada.
- 2) Canada may reject the bid if any of the prices submitted do not reasonably reflect the cost of performing the part of the work to which that price applies.

UNIT PRICE TABLE

The Unit Price Table designates Work to which a Unit Price Arrangement applies.

- (a) Work included in each item is as described in the referenced specification section.
- (b) The Price per Unit shall not include any amounts for Work that is not included in that unit price Item.

BASE WORK (A)						
	Class of Labour, Plant or Material	Specification Section	Unit of Measure	Estimated Quantity (EQ)	Price per Unit (PU) applicable taxes extra	Extended amount (EQ x PU) applicable taxes extra
1	Pre-Mobilization Submittals	012520 - 1.1.1	Lump Sum	1		
2	Mobilization	012520 - 1.1.2	Lump Sum	1

OPTIONAL WORK (B)

Pricing described in OPTIONAL WORK (B) must be provided by the bidder.

The following work shall be considered an optional addition to this tender package. Any bid without the inclusion of the following lines will be considered non-compliant and therefore disqualified.

The Contractor grants to Canada the irrevocable option to acquire the goods and/or services described below as Optional Work and as described in the Specifications and Drawings of the Contract under the same conditions and at the prices and/or rates stated in the Contract. The exercise of any option will be at Canada's sole discretion, the options may only be exercised by the Contracting Authority and will be evidenced through a contract amendment for administrative purposes only.

The Contracting Authority may exercise the option during the period from contract award to contractor mobilization by sending a written notice to the Contractor.

OPTIONAL WORK (B)						
	Class of Labour, Plant or Material	Specification Section	Unit of Measure	Estimated Quantity (EQ)	Price per Unit (PU) applicable taxes extra	Extended amount (EQ x PU) applicable taxes extra
