This amendment is raised to:

- B. Modify the solicitation documents

A. Questions and Answers

Q1. What is the voltage for the water supply well pump (Grundfos SP 77S15-3) section 33 21 00?

A1. The Brackley water supply pump should be a Grundfos model 85S30-2 (product number 12B63002). There is a discrepancy between the drawings and the specs that will be addressed in an addendum to be issued tomorrow. The correct pump is 3 hp and has a voltage of 208-230 V.

Q2. What phase is the motor for the water supply pump?

A2. 3 phase
