Question and Answer No. 1

Re: W0142-19X032 DRS Engineering Services

Q1. In reference to the subject line amendment: we require a definition of "heavy" to be able to quote on the Basis of Payment *Heavy Transportation*. There is no previous mention of any particular weight requirement, there is nothing in the list of items that I would consider 'heavy' except the flat racks - and an *ordinary* trailer can carry those, of a weight capability decided by the contractor. Unless there is a requirement by BATUS to take a certain number at a time, which also has not been mentioned.

A1. Flat Track approximate weight is 1500 kg with the following dimensions:

Request to quote on heavy transportation is in the event that it is required to transport these items.
