Solicitation Amendment 002 is issued to

- 1. Respond to a question received during the solicitation posting; and**
- 2. Extend the closing date as follows:**

1. Response to a question received during the solicitation posting.

Question no. 1

Regarding ANNEX “A” – Requirement, ANNEX A1 – Mandatory Technical Criteria, Items No. 19-20.

The question is:

Can you please specify the focal lengths and minimum apertures that you want/need for these two lenses? The question is asked because for item no. 20 in particular, if one were to fill the sensor with the 5x3 m field of view at a distance of 100 meters, this would require about a 740 mm focal length telephoto lens, which is in the tens of thousands of dollars range. However, it is suspected that the 5x3 m field of view implies only a subsection of the sensor is used, in which case a lower focal length lens can be used.

Response no. 1

Required Specifications for each lens:

Lens 1 – 35mm F1.8

Lens 2 – 70-300mm F4-5.6 telephoto

Question no. 2

Focal Length specifications would be sufficient.

Response no. 1

See response no.1.

2. Extend the closing date
