**REQUEST FOR QUOTATION AMENDMENT NO. 006**

Request for Quotation Amendment no. 006 is raised for the following reasons:

- To address questions pertaining to the delivery timeframe.
- 

**Question 10**

According to amendment 005 , the delivery for Stream 1 is 30 days and the delivery for Stream 2 is 60 days. As you are aware Stream 2 has a specific product DOCK190USZ which is a Targus product – Why the crown is providing Targus an advantage by allowing them 60 days to deliver 1500 units vs any competitor that could win Stream 1 to deliver more than 2200+ units in 30 days?

**Answer 10**

The delivery time frame of 60 days for Stream 2 was allowed based on the client's operational needs. However after another consultation with the client, the deliveries will only be accepted as follows for Stream 1: 100% or 50% of the total quantity per order 30 federal government working days after the date of contract award and the remaining 50% of the total quantity per order if applicable 60 working days of the federal government after contract award date.

**Question 11**

The Crown is clearly favoring Targus over other Manufacturers by knowing that delivery deadline of stream 1 cannot be met in 30 days and we are requesting a change to 60-90 days?

**Answer 11**

Please refer to answer # 10 above.

**Question 12**

Why the Crown is favoring Targus over other manufacturers by closing Stream 2 to competing products and Making it mandatory as DOCK190USZ ? – It should be open to all manufacturers.

**Answer 12**

The decision to request a specific product in Stream 2 is based on strict adherence to existing policies. This permission stems from the client's operational needs and the justifications presented.

**Question 13**

Competitors can provide better pricing and products if given enough time to build stock – Can the Crown change deliveries to 60-90 days?

**Answer 13**

In order not to put the operations of the clients at risk, the delivery timeframe and quantity presented in answer No 10 above must be respected.
