

SEN 047 19/20
Cloud-based Software as a Service (SaaS), Global Positioning System (GPS) Solution

QUESTIONS AND ANSWERS #1

November 13, 2019

Question #1:

Will the work be done at your place?

Answer #1:

The installation of GPS can be done at our location or at the Supplier location. This detail will have to be coordinated with the Senate and the supplier.

Question #2:

If so, will we have access to multiple vehicles per days? How many?

Answer #2:

Yes, however the installation work will have to be coordinated between the Senate and the supplier in order to avoid a negative impact on the performance of the services. The 7 vehicles may be available depending on the installation time.

Question #3:

What are the types of vehicle that will be equipped?

Answer #3:

Current Inventory below. Another Coach is on order but not yet available.
