*When release restrictions are indicated, specify if permanent residents are allowed to be included.

Security Requirement Checklist (SRCL) Supplemental Security Guide

Part B - Multiple Levels of Personnel Screening: Security Classification Guide			
To be completed in addition to SRCL question 10.a) when multiple levels of personnel screening are therein identified. Indicate which personnel screening levels are required for which portions of the work/access involved in the contract.			
Level of Personnel Clearance (e.g. Reliability, Secret)	Position / Description/Task	Access to sites and/or information. Levels of Information to be accessed.	Citizenship Restriction (if any)
Secret	Technical Work, Parts Repair of the AN/SPG-516 Mk4 Fire Control System (CEROS-200)	Required for access to DND Dockyards, HMCS Ships and DND shore sites. Certain aspects of the system are classified up to SECRET (CAN/US only)	CANADA/US
Secret	Technical Work, Parts Repair and Support of all systems within HCCS as well as overall Project Management	Required for access to DND Dockyards, HMCS Ships and DND shore sites. All program information unless specifically otherwise deemed/approved.	None
Reliability Status	Limited program execution stages and tasks (if any) specifically deemed/approved as unclassified	Limited areas of Manufacturer production facilities, limited program execution stages/tasks and/or program information (if any) specifically deemed/approved as unclassified. Specifically approved (limited) unclassified visits to DND facilities.	None
Unscreened	Limited program execution stages and tasks (if any) specifically deemed/approved as unclassified or not sensitive in nature	Limited areas of Manufacturer production facilities, limited program execution stages/tasks and/or program information (if any) specifically deemed/approved as unclassified or not sensitive in nature. Unscreened personnel must be escorted.	N/A

		Specifically approved (limited) unclassified/non-sensitive visits to DND facilities. On DND premises, unscreened personnel may only access public/reception zones and must be escorted. No classified, designated protected or sensitive information (including controlled goods and ITAR) is to be provided to unscreened personnel.	

Part C – Safeguards / Information Technology (IT) Media – 11d = yes
IT security requirements are specified in separate technical documents and are submitted with the SRCL
