Amendment 001 is raised for the following:

Solicitation closing date:

Delete: 20 November, 2019

Insert: 4 December, 2019

Question 1: With reference to Annex A, item 2.2, we can accommodate the required dimensions with posts in between panels. Please confirm that this is acceptable.

Answer 1: This is acceptable as long as the specified attenuations are reached across the entire height and width of the panel.

Question 2: With reference to Annex A, item 2.4, would you please provide more details regarding this requirement. Are you looking for Acoustic Louvers?

Answer 2: The primary purpose of this panel is to attenuate radio signals that could damage other equipment nearby. The attenuation must be no less than 20dB over the specified frequency range. Testing verification must be provided by the vendor.

All other terms and conditions remain the same
