This amendment is being raised to answer the following question to solicitation W0142-20X040/A:

1. Question and Answer

Question 1

Item 1.2 states: "Must have Integrated Contactor"

Item 2.2 states: "Must include a built in Battery Protection System, a Circuit Protection System, a Battery Management System **OR** an Integrated Contactor"

Are you simply looking for LiFePO4 with Battery Management System (BMS) **OR** Integrated Contactor (IC) in both types of battery assemblies?

Answer 1

Reference Spec 1.2 - Item 1: As a minimum the item must have specifically an Integrated Contactor.

Example: Item 1 battery could have an Integrated Contactor and Battery Management System – this would be acceptable.

However, if Item 1 battery only had the Battery Management System and NO Integrated Contactor, this would NOT be acceptable because the Integrated Contactor is the minimum requirement for this battery.

Reference Spec 2.2 - Item 2: Options are available. As a minimum the item must have one (1) of the following four (4) features included:

- Battery Protection System ;
- Circuit Protection System;
- Battery Management System; OR
- an Integrated Contactor.

Example: Item 2 battery could have a Circuit Protection System but no Integrated Contactor, this would be acceptable as 1 of 4 required features (the minimum) is present.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
