## PART 1 - GENERAL INFORMATION

### 1.1 Requirement

The requirement is detailed under Article 6.2 of the resulting contract clauses.

### 1.2 Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days from receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

### 1.3 Trade Agreements

The requirement is subject to the provisions of the North American Free Trade Agreement (NAFTA) and the Canadian Free Trade Agreement (CFTA).

## PART 2 - BIDDER INSTRUCTIONS

### 2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The [2003](#) 2017-04-27 Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.4 of [2003](#), Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: 60 days  
Insert: 90 days

### 2.2 Submission of Bids

Bids must be submitted only to Shared Services Canada (SSC) by the date, time and place indicated on page 1 of the bid solicitation.

### 2.3 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than 7 calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is

eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

## **2.5 Applicable Laws**

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

## **PART 3 - BID PREPARATION INSTRUCTIONS**

### **3.1 Bid Preparation Instructions**

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I:        Technical Bid (1 copy)  
Section II:       Financial Bid (1copy)  
Section III:      Certifications(1copy)

Canada requests that bidders follow the format instructions described below in the preparation of electronic copy of their bid:

- i. Bidders must submit their responses by the date and time of bid closing to the email address provided. Bidders must submit their responses as documents attached to an email. These documents can be PDF documents or other documents that can be opened with either Microsoft Word or Microsoft Excel.
- ii. Bidders may submit their responses in multiple emails, but all emails must arrive at the Email Address by the bid closing date and time. Emails received after that time will not be considered as part of the response. Bidders are requested to indicate in all emails that they are responding to this solicitation by using the solicitation No. on the cover page of this document in the Subject line of the email.
- iii. Bidders should ensure that they submit their response in multiple emails if any email, including attachments, exceeds 15 MB.
- iv. The time at which the response is received by SSC will be determined by the "Received Time" indicated in the email received by SSC at the Email Address. Bidders are strongly encouraged to use their delivery receipt and read receipt email options when sending the bid.
- v. The same day that the responses are received by email, an SSC representative should send an email acknowledging receipt of each response (and each email forming part of that response, if multiple emails are received) that was received by the bid closing date and time at SSC's Email Address. Respondents who have tried to submit a response, but have not received an email acknowledging receipt should contact the Contracting Authority so that they can determine whether or not the response arrived at the SSC Email Address.
- vi. Canada will not be responsible for any technical problems experienced by the bidder in submitting its response, including emails that fail to arrive because they exceed the maximum email size or are rejected and/or quarantined because they contain malware or other code that is being screened out by SSC's security services, unless Canada's systems are responsible for a delay in delivering the email to the SSC Email Address for Response Submission.

- vii. Canada will also not be responsible for any technical problems with opening the documents, provided they are provided either as a PDF, Microsoft Word or Microsoft Excel document. For example, if an attachment is corrupted or otherwise cannot be opened or cannot be read, it will be evaluated accordingly. Respondents will not be permitted to submit substitute documents to replace any that are corrupt or empty.
