RFSO 322 – SOFT SKILLS COURSES

QUESTION AND ANSWER

Question 1: For the Bidders’ Experience Rated Requirement R1, can we use the OAG as a reference? Although we regularly deliver courses to many other clients from all of these streams, R1 requires references for whom we delivered courses from all six streams in the last three years. This restricts the number of possible references and the OAG is an important one for us.

Answer 1: Yes, the OAG experience can be used as a reference for the Bidder’s Experience under Rated Requirement R1. For greater clarity, OAG is looking for two (2) project experiences under Rated Requirement R1, and together these two (2) projects cover all six (6) streams, with at least one (1) course per stream.
