## **QUESTIONS AND ANSWERS**

**Question: 5**

Regarding solicitation FP8435-190030/A, requirement R-2.2 contains a criteria for "Implementation of web mapping applications, data workflow and geo-processing completed through valid ESRI certification", ESRI certifications are generally not recognized, nor required, in the geomatics industry or by the Canadian Geomatics Association as they relate to the use of specific products, rather than expertise required to implement and optimize a web mapping application, data workflow and geo-processing. The ESRI certification are designed to measure basic knowledge of the functionalities, but is not a guarantee that a GIS professional will use the best possible approach nor be able to scale the solution to production.

As an equivalence to ESRI certification, will Canada accept demonstrated experience with ESRI products?

**Answer: 5**

ESRI certifications are required for the mentioned Corporate Reference Contracts listed under Attachment 2 – Bid Evaluation Criteria (R-2.2). The requirement remains unchanged.

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.**
