Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. 4.2 Basis of Selection

4.2.1 SACC Manual Clause [A0027T](#) (2012-07-16) Highest Combined Rating of Technical Merit and Price

1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the bid solicitation; and
 - b. meet all mandatory criteria; and
 - c. obtain the required minimum of 10 points overall for the technical evaluation criteria which are subject to point rating.
The rating is performed on a scale of 40 points.
2. Bids not meeting (a), (b) and (c) will be declared non-responsive.
3. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 70% for the technical merit and 30% for the price.
4. To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 70%.

5. To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 30%.
6. For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.
7. Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 70/30 ratio of technical merit and price, respectively. The total available points equals 135 and the lowest evaluated price is \$50,000.00 (50).

Basis of Selection - Highest Combined Rating of Technical Merit (70%) and Price (30%) *			
Bidder	Bidder 1	Bidder 2	Bidder 3
Overall Score for All the Point Rated Technical Criteria	OS1: 120/135	OS2: 98/135	OS3: 82/135
Bid Evaluated Price	P1: C\$60,000	P2: C\$55,000	LP* and P3: C\$50,000
*LP = Lowest Price			
Calculations	Technical Merit Score (OS_i x 70)	Pricing Score (LP*/BP x 30)	Combined Rating
Bidder 1	120/135 x 70 = 62.22	50/60 x 30 = 25.00	87.22
Bidder 2	98/135 x 70 = 50.81	50/55 x 30 = 27.27	78.08
Bidder 3	82/135 x 70 = 42.52	50/50 x 30 = 30.00	72.52

** Note to Offerers: Values indicated in the above table are for example purposes only.

4.2.2 Basis of awarding a Standing Offer

The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. If any of these required certifications or additional information is not completed and submitted as requested, the Standing Offer Authority will inform the Offeror of a time frame within which to provide the information.
