Questions and Answers

The following are the bidder's questions and Canada's responses to questions received via e-mail.

Reference	Reference Description	Bidder's Question	Canada's Response
		Will a one week's extension be permitted (close Dec 18)?	yes
		Will a three week's extension be permitted?	No. A one week extension has been granted at this time.
7.1.1.1	Vessel Configuration	...on the self-righting frame. Is there a righting system required?	no
7.1.1.2	Vessel Configuration	...outfitted with a lighting and Radar arch per section 9.9 Please detail as there is no section 9.9 in the document. Is a tow rope recoil barrier required for use with the aft tow post?	Stern arch equipped with life ring holder and scientific pole holders. No additional radar mount is required on the arch as the radar will be placed on top of the console roof. The arch will not need to be equipped for self-righting. Tow rope recoil barrier is not required.
7.1.1.4	Vessel Configuration	...T-Top must be built to accommodate a person of 100kg on top of the console. In order to comply with cited construction standards, a design that will facilitate a person on top of the T-Top for observation or other purposes while at sea, incurs significant liability. The design would	For maintenance – robust enough to allow work on the roof. Ladders are not required.

		have to be significantly robust with ladders and handrails. Such a design will consume deck space and increase cost. Please confirm intent.	
7.2.3	Vessel Configuration	This para is a repeat of 7.1.1.4?	Remove as it is repeated
7.5.1.6 & 7.5.2.5	Vessel Configuration	<i>In front of the console there will be an additional bench seat.</i> This is a very busy deck layout. A bow storage box forward, followed by a bench seat, followed by console, followed by Option 1 Row 1 helm bench seat, followed by Row 2 folding bench seat with a pair of seizure lockers in between. This is a 7m RHIB. Suggest to lose the bench seat in front of the console.	Not necessary to include the bench seat
7.8.14	Vessel configuration	Please detail decal package.	"RESEARCH" in large visible white letters on tube set – port and starboard. Program crest on each side of console - DFO will supply.
8.13.4	Construction	Please detail requirement - photos would be good.	This is an additional tube protection using EDPM rubber that extends from the tube connection to the becket lines on the forward inside face of the tube set.

9.6.10	Outfitting and Equipment	<i>...on the self-righting arch.</i> Is there a righting system required?	No
7.5.2	Vessel configuration	- Note two price options for consideration. <i>There is no provision in Annex E for separately priced seating options (option 1 & 2).</i>	Delete 7.5.2 Option 2 (shock mitigating seats) in its entirety.

All other terms and conditions of the solicitation and resulting contract clauses remain the same.
