This amendment is being raised to answer the following question, make changes and change the closing date of solicitation W0142-20X040/A:

DELETE: December 16, 2019 2:00 p.m. CST

INSERT: December 20, 2019 2:00 p.m. CST

1. Question and Answer

Question 1

Reference to point 1.1 of compliance matrix and also Q/A 2 in Amendment 3:

The battery we can offer is 12.07" (L) x 6.57" (W) x 8.63" (H). The width and length of this battery is only 0.07" more than what is asked (less than 2mm). Could you please recheck and see if it can be fit in your equipment? Could you please confirm if there is a battery available in the market which dimension complies with the solicitation requirement?

Answer 1

The maximum space is in fact: 12" x 6.5" x 8.75"; however we are willing to make a small modification to the space. To modify meaning there is a thin piece of foam that can be removed from the space that the battery will be fitting. 12.07" is the absolute maximum but there is no physical way to make the space any larger other than removing the small strip of foam.

The following dimensions are the absolute maximum we are willing to accept:

12.07" (L) x 6.57" (W) x 8.75" (H)
