## Amendment 002

### Catering Services

This amendment is raised to answer questions related to this Request for Standing Offer.

#### Question:

With reference to Clause 6.7 and in particular SACC D3004C - Type of Transportation, the SACC stipulates that the delivery must be made in refrigerated transport. The acceptable temperature range is from 1.5° C to 4° C or (35° F to 40° F).

I don't think there are many caterers that have a refrigerated truck. Would it be acceptable just to leave it that the chilled food items have to arrive between 4° C and 1° C as per SACC D0014C?

#### Answer:

No, it would not be acceptable to leave it that the chilled food items have to arrive between 4° C and 1° C.

Refrigerated transport means the vehicle transporting the products being shipped has a built-in refrigeration system that keeps products at a desired temperature throughout the transportation process.

**NOTE:** D0014C states:

Fresh chilled or frozen products must be delivered in accordance with Canadian Food Inspection Agency requirements stipulating that frozen products must be maintained at -18° C or lower, and fresh chilled products between 4° C and 1° C until delivery. All fresh chilled or frozen products **must be delivered in refrigerated vehicles** and show no evidence of deterioration. Frozen products must not have been frozen for longer than 90 days since the date of processing in the fresh state.

**All other terms and conditions of this Request for Standing Offer remain unchanged**
