**Question 4:**

In regard to your Tender Notice - Xplorers and Club Parka booklets (5P004-190402/A), it is stated that the Paper Stock must be [**Rolland ENVIRO satin, white, text 160M (80lb), recycled, post-consumer 100%**].

Would you consider another paper type other than Enviro Satin?

I was wondering if I could introduce a different paper product as another solution. The proposed paper is made from recycled calcium carbonate (Stone) and is waterproof and tear resistant. Zero water, trees, and bleaches are used in the product. It is currently used for trail and ski maps and does not fall apart when it gets wet, therefore extending a single map's lifespan from a couple hours or a day up to years.

**Response 4:**

Due to the nature of the programs, the booklets do not need a lifespan of a few years. The only paper that will be accepted is Enviro Satin text 160M (80lb), white, recycled, post-consumer 100%.

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED**

If your proposal has already been submitted it can be modified by submitting an amendment identified with file no. 5P004-190402/A to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated in the bid solicitation.
