Note: Site contact information will be provided after contract award

Questions

1. Is 50"H total panel height acceptable and which option is preferred? (Monolithic vs base with stack)

Answer: 50"H total panel height is acceptable and base with stack is preferred and will be the only option considered.

2. Is a height adjustable shelf required in the wardrobe section?

Answer: no shelf is required in wardrobe section but must have bar for coat hanger(s). Also, must have door with keyed lock.

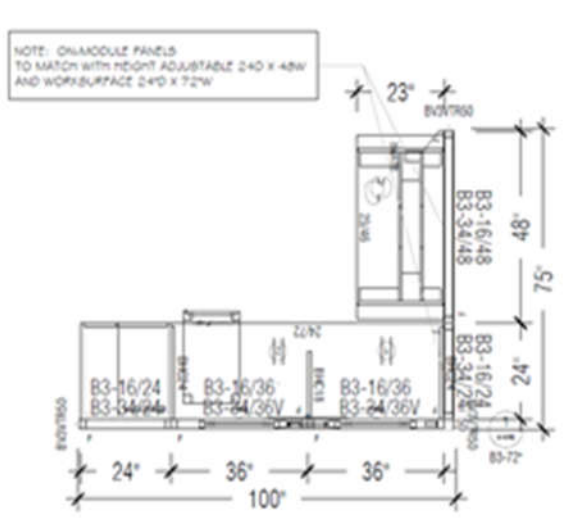

Open storage requires two height adjustable shelves.

3. Furniture plan shows Office M105, should this be quoted?

Answer: no, Office M105 should not be included in any part of the bid.

4. Could the panels be on-module instead of Qty 2-36"W non-Power panels? For example, if the Height Adjustable Table is 42"W, use correspondent panel width?

Answer: yes, only panels in Matrix A may be substituted to be on module as per the example below and to accommodate the change in the width of the height adjustable work surface from 42" to 48"

5. Can you provide a .dwg CAD file?

Answer: yes, a .dwg file will be provided upon request
