GENERAL INFORMATION

1.0 PROJECT SUMMARY

AAFC is requesting proposals for the conduct of field trials at various locations in North America to generate efficacy and crop tolerance data and crop samples for the laboratory analysis of pesticide residues and to screen pesticides for the control of pests and diseases for which effective control is unknown. The data generated by these trials will be used in regulatory submissions to the Pest Management Regulatory Agency (PMRA) for new minor uses of pesticides. The residue trials must be conducted in accordance with OECD Good Laboratory Practice (GLP) standards or U.S.A. Environmental Protection Agency (EPA) GLP and GLP study plans. Field trials for efficacy and crop tolerance must meet the appropriate policies and data requirements of the Pest Management Regulatory Agency (PMRA), particularly DIR2013-03, Value Assessment of Pest Control Products http://www.hc-sc.gc.ca/cps-spc/pubs/pest/_pol-guide/dir2013-03/index-eng.php and Value Guidelines for New Plant Protection Products and Label Amendments, http://www.hc-sc.gc.ca/cps-spc/pubs/pest/_pol-guide/value-guide-valeur/index-eng.php).

The requested work covers a number of different crops, pests and pesticides in different crop growing zones across North America.

Bidders will choose which trials they wish to bid on. This will result in more than one contract being awarded. Due to the competitive nature of this RFP, potential Bidders may be successful in only a portion of the trials bid.

GST /HST (if applicable) can only be collected if your company has a GST/HST registration number. For further information please contact Canada Revenue Agency at: <http://www.ccra-adrc.gc.ca/sitemap-e.html#tax>.

The failure by US companies to bid in Canadian dollars (a mandatory requirement of the solicitation) is sufficient to make its proposal non-compliant. AAFC will reject a US company's bid made in any currency other than Canadian.

If the Bidder is a sole proprietorship, a partnership or a corporate body, the Bidder should provide a statement indicating the laws under which it is registered or incorporated together with the registered or corporate name and place of business and the country where the controlling interest/ownership of the organization is located as per Appendix E of this RFP.

2.0 ACCEPTANCE OF TERMS AND CONDITIONS

- 2.1 Agriculture and Agri-Food Canada will **only** consider Proposals which **accept** Agriculture and Agri-Food Canada's terms and conditions.
- 2.2 The General Conditions attached in Appendix A and those set out in Part 3, Resulting Contract Clauses of this RFP shall form part of any Resulting Contract.

3.0 INCURRING COST

- 3.1 The cost to prepare the Proposal will **not** be reimbursed by Agriculture and Agri-Food Canada.
- 3.2 No cost incurred before receipt of a signed Contract or specified written authorization from the Contracting Authority can be charged to any Resulting Contract.

4.0 ENQUIRIES - SOLICITATION STAGE

- 4.1 All enquiries or issues concerning this solicitation must be submitted in writing to the Contracting Authority named on the cover page of the RFP. It is the responsibility of the Bidder to obtain clarification of the requirements contained herein, if necessary prior to submitting a proposal.
- 4.2 Enquiries and issues must be received by the Contracting Authority no later than ten (10) calendar days prior to the solicitation closing date specified herein to allow sufficient time to provide a response. - 4.6 Bidders shall not place any conditions or make any assumptions that attempt to limit or otherwise modify the scope of Work pursuant to the Statement of Work (Appendix B)

5.0 RIGHTS OF CANADA

- 5.1 Canada reserves the right to:
1. Accept any Proposal in whole or in part, without prior negotiation;
 2. Reject any or all Proposals received in response to this RFP;
 3. Cancel and/or re-issue this RFP at any time;
 4. Ask the Bidder to substantiate any claim made in the Proposal;
 5. Enter into negotiations with one or more Bidders on any or all aspects of their Proposals;
 6. Award one or more Contracts;
 7. Cancel listed trials at any time;
 8. Retain all Proposals submitted in response to this RFP.

6.0 SUBSTANTIATION OF PROFESSIONAL SERVICES RATES

- 6.1 In Canada's experience, bidders will from time to time propose prices at the time of bidding that they later refuse to honour, on the basis that these prices do not allow them to recover their own costs and/or make a profit. When evaluating the prices for professional services bid, Canada may, but will have no obligation to, require price support for any prices proposed. Examples of price support that Canada would consider satisfactory include:

1. documentation (such as billing records) that shows that the Bidder has recently provided and invoiced another customer (with whom the Bidder deals at arm's length) for services similar to the services that would be provided under a resulting contract, and the fees charged are equal to or less than the price offered to Canada (to protect the privacy of the customer, the Bidder may black out the customer's name and personal information on the invoice submitted to Canada);
2. a signed contract between the Bidder and an individual qualified (based on the qualifications described in this bid solicitation) to provide services under a resulting contract where the amount payable under that contract by the Bidder to the resource is equal to or less than the price bid;
3. a signed contract with a subcontractor who will perform the work under any resulting contract, which provides that the required services will be provided at a price that is equal to or less than the price bid; or
4. details regarding the salary paid to and benefits provided to the individuals employed by the Bidder to provide services, where the amount of compensation, when converted to a per diem or hourly rate (as applicable), is equal to or less than the rate bid for that resource category.

Once Canada requests substantiation of the prices bid, it is the sole responsibility of the Bidder to submit information (either the information described in the examples above, or other information that demonstrates that it will be able to recover its own costs based on the prices it has proposed) that will allow Canada to determine whether it can rely, with confidence, on the Bidder's ability to provide the required services at the prices bid, while, at a minimum, recovering its own costs. Where Canada determines that the information provided by the Bidder does not demonstrate the Bidder's ability to recover its own costs in providing the prices bid, Canada may, at their sole discretion declare the bid non-compliant.

7.0 MANDATORY CLAUSES

- 7.1 Where the words "**must**", "**shall**" or "**will**" appear in this RFP, the clause is to be considered as a mandatory requirement.

8.0 DEBRIEFING

- 8.1 After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within the timeframe specified in the contract award notice. The debriefing may be in writing, by telephone or in person at the discretion of the Contracting Authority.

9.0 OFFICE OF THE PROCUREMENT OMBUDSMAN

If you have issues or concerns regarding the solicitation, you have the option of raising them with the department or with the Office of the Procurement Ombudsman (OPO). The Office of the Procurement Ombudsman was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at boa.opo@boa.opo.gc.ca. You can also obtain more information on the OPO services available to you at their website at www.opo-boa.gc.ca.

- 1.2 In their bid submission, bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their proposal, by deleting the Canadian province specified in the previous paragraph and inserting the Canadian province or territory of their choice. If no change is made, the bidder acknowledges the applicable law specified is acceptable to the Bidder.

2.0 SUBMISSION OF PROPOSAL

- 2.1 Proposals must be submitted in hard copy as described in Article 3.0 Proposal Preparation Instructions.

Due to the nature of this RFP electronic transmission of proposal by such means as electronic mail or facsimile to the Department of Agriculture and Agri-Food is not considered to be practical and therefore will not be accepted.

Costs shall not appear in any other area of the proposal except in the Financial Proposal.

All bids must be in Canadian dollars. Financial evaluations are calculated on the total cost of the project, excluding GST or HST (if applicable). Only the Canadian currency value for the bid will be used in evaluating a proposal. The Canadian currency value for a bid is fixed at the time of the proposal, irrespective of future changes in currency rate.

The costs of shipping crop samples for residue analysis to designed laboratories shall be the responsibility of the contractor. AAFC will reimburse the contractor based on original receipts submitted to AAFC for the actual cost of shipping. 6.0 CERTIFICATION REQUIREMENTS

In order to be awarded a contract, the certifications attached in **Appendix “E”** will be required. The certifications should be submitted with the proposal. Canada may declare a bid non-responsive if the certifications are not submitted or completed as required. Where Canada intends to reject a proposal pursuant to this paragraph, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time frame period will render the proposal non-responsive.

Compliance with the certifications the Bidder provides to Canada is subject to verification by Canada. The Contracting Authority shall have the right to ask for additional information to verify that the Bidder is compliant with the applicable certifications before and after award of a contract. Any certification made by the Bidder that is determined to be untrue, whether made knowingly or unknowingly, or any failure to comply with the certifications or comply with the request of the Contracting Authority for additional request of the Contracting Authority for additional information, will render the bid non-responsive.

Proposals received will be compared separately against the evaluation criteria identified therein for the total requirement described in this RFP and in conjunction with the accompanying Statement of **Work (Appendix “B”)**.

Proposals for residue and efficacy/ crop tolerance/ screening trials will be evaluated separately and therefore, proposals should clearly identify that all requirements are met for each type of trial.

It is in the interest of contractors to follow the invoice schedule in Section 14.0 as a late submission of deliverables and associated assessment may result in a decision that trial should have been terminated well before invoice and deliverables were submitted to AAFC. In these situations, AAFC will pay up to point where trial should have been terminated as per the financial proposal. All extra work will be the responsibility of contractor.

APPENDIX B STATEMENT OF WORK

1.0 Background

AAFC is requesting proposals for the conduct of field trials at various locations in North America to generate efficacy and crop tolerance data and crop samples for the laboratory analysis of pesticide residues and to screen pesticides for the control of pests and diseases for which effective control is unknown. The data generated by these trials will be used in regulatory submissions to the Pest Management Regulatory Agency (PMRA) for new minor uses of pesticides. The residue trials must be conducted in accordance with OECD Good Laboratory Practice (GLP) standards or U.S.A. Environmental Protection Agency (EPA) GLP and GLP study plans. Field trials for efficacy and crop tolerance must meet the appropriate policies and data requirements of the Pest Management Regulatory Agency (PMRA), particularly (DIR2013-03, Value Assessment of Pest Control Products http://www.hc-sc.gc.ca/cps-spc/pubs/pest/_pol-guide/dir2013-03/index-eng.php and Value Guidelines for New Plant Protection Products and Label Amendments, http://www.hc-sc.gc.ca/cps-spc/pubs/pest/_pol-guide/value-guide-valeur/index-eng.php).

The requested work covers a number of different crops, pests and pesticides in different crop growing zones across North America.

2.0 Objective

The objective is to conduct field trials to meet data requirements for the registration of new minor uses of pesticides. Residue trials must be conducted in accordance with GLP standards and study plans and PMRA policies and directives, raw data field notebooks (RDFN) completed and audited, and harvesting and shipping of crop samples to laboratories as specified in the study plans. Efficacy and crop tolerance to pesticide trials must be conducted in accordance with PMRA policies and directives and AAFC study plans, with reports and raw data submitted electronically and in hard copy.

3.0 Scope of Work

The contractor will be responsible to locate the specified crop and pest combination either on its own site or off-site, apply pesticides to the crop, make required observations and assessments and take yield measurements and crop samples for laboratory analysis. Details for the trial requirements are found in Appendix B (Attachment 1 – list of trials with use pattern information) NOTE: there are separate tabs for GLP and non-GLP trials. Once a contract is awarded, AAFC will provide contractors with detailed study plans and templates for status report and/or tracking form. Any departure from the study plans or any modification must be discussed immediately with the AAFC personnel responsible for the trial. Failure to follow the study plan or making modifications to the study plan without consultation and approval by the AAFC personnel will result in cancellation of the trial at the expense of the contractor. AAFC will not pay for trials that do not follow the study plan supplied.

Please note that trials conducted in commercial greenhouse operations may be subject to research permits from the Pest Management Regulatory Agency. Please contact the Study Director or project lead prior to initiation of any work in a commercial greenhouse.

Residue Trials:

- Projects must follow the study plan provided by AAFC (or by USA Inter-Regional Project 4 (IR-4)) and meet the appropriate policies and data requirements of the PMRA (DIR1998-02, Residue Chemistry Guidelines).
- Contractors will record and advise the study director of all deviations to the GLP study plan.
- Contractors will provide a copy of the master schedule and monthly reports on the status and condition of the field trials.
- Contractors must communicate effectively with Study Director and GLP administration (eg. deviations from the study plan, study progress, identify critical phases, etc.).
- QA personnel must be identified in the proposal for approval by AAFC.
- Contractors must provide a Quality Assurance (QA) audit of a critical event for each residue field trial and the completed raw data field notebook (RDFN).
- A QA statement documenting the inspections is to be signed by the QA auditor responsible for the trial and submitted with the completed RDFN audit
- Contractors must submit to AAFC Project Authority, prior to trial initiation, the critical event QA audit schedule detailing the selected phase for each trial at each test site.
- Contractors must provide the Standard Operating Procedures (SOPs) to AAFC Project Authority (for returning contractors, updates to current SOPs if revisions have been made must be provided).
- A soil analysis must be conducted for each trial. For multiple trials at the same test site, one analysis is sufficient, provided the soil type is the same across the test site.
- Record and verify all experimental data accurately.
- Record information and complete RDFN, including QA audit.
- Complete electronic summary of RDFN, including QA audit.
- Provide GLP compliant storage and handling for field samples from residue trials.
- Arrange and ship samples to laboratories in accordance with GLP study plan.
- Ensure all trials are clearly posted and monitored in order to prevent premature harvest of the crop.
- Commit to maintaining the trial in accordance with the current commercial/agricultural practices.
- Destruction of the treated crop will be required and follow crop destruct procedures as specified in the study plan.

Efficacy/ Crop Tolerance and Screening Trials:

- Contact grower representative, grower groups or provincial or federal crop / pest specialists to identify suitable sites to ensure adequate pest pressure for efficacy and screening trails
- Provide documentation of efforts made to ensure adequate pest pressure and successful trial conduct, including pertinent grower organizations and crop/pest specialists contacted.
- Complete and submit workplan (template for workplan will be provided once contract is awarded) for trial activities for approval by the project coordinator prior to initiation of trial work.
- Projects must follow the study plan and meet the appropriate policies and data requirements of the PMRA (DIR2013-03, Value Assessment of Pest Control Products http://www.hc-sc.gc.ca/cps-spc/pubs/pest/_pol-guide/dir2013-03/index-eng.php and Value Guidelines for New Plant Protection Products and Label Amendments, http://www.hc-sc.gc.ca/cps-spc/pubs/pest/_pol-guide/value-guide-valeur/index-eng.php).
- For screening trials, the study plan will be developed by the Project Lead with input from the Principal Investigator prior to trial initiation. The study plan will contain all information on trial personnel, methods and experimental design, test items, treatments,

and reporting guidelines. If no suitable test substances are identified in collaboration with grower representative(s), Principal Investigator and Project Lead for a screening project; the Project Lead reserves the right to cancel the trial.

- Provide trial status reports (template will be provided once contract is awarded) on the status and condition of the field trials, including pest pressures, crop condition and identified problems, to be submitted following each assessment or on a monthly basis if no assessments are scheduled.
- Communicate effectively with the Project Coordinator.
- Record and verify all experimental data accurately.
- Ensure all reports accurately reflect data collected.
- Ensure all trials are clearly posted and monitored in order to prevent premature harvest of the crop. Destruction of the treated food/feed crops will be required. Follow crop destruct procedures as specified in the study plan.
- Commit to maintaining the trial in accordance with the current commercial/agricultural practices.
- Efficacy, crop tolerance and screening trials may be conducted in zones other than those indicated, provided the crop is typically grown and there is sufficient pest pressure in the proposed zone

4.0 Communications

The nature of the work under this contract requires frequent communication with the project authority, project leads and study directors. Contractors must submit a workplan for approval by the project lead or study director prior to initiation of trial work. A template for efficacy/ crop tolerance trial workplan to be provided after contract is awarded. Residue trials may use the Trial Tracking form provided in the RDFN. The trial tracking form should be submitted to the study director as specified trial events take place.

In the case of efficacy trials, contractors must provide reports on pest pressure (pest ratings) prior to trial initiation and before and after each pesticide application at which time project leads will assess the status of pest pressure. Termination of the trial may occur as a result of the evaluation on status of pest pressure. In the event of lack or low level of pest and failure to communicate with the project lead, payment will be made only up to the point where low levels or lack of pest pressure was determined/detected. A template for trial status reporting for efficacy/crop tolerance trials will be provided after contract is awarded. Status reports are to be submitted following each application/pest assessment or at least on a monthly basis, if no application or assessment is scheduled during the month.

Contact the Study Director immediately if any event occurs that may impact the successful completion of the trial. This may include, but not be limited to poor crop emergence/establishment, adverse weather precluding test item application at appropriate timing or severely damaging the crop, accidental pesticide application etc.

7.0 Contract Duration

It is expected that the crops will be grown, treated and samples harvested between April and October 2020. RDFN's and reports/raw data are required within the time lines specified by AAFC responsible personnel. Contract end dates will be March 31, 2021, to allow for completion of all documentation, reporting and invoicing. Exceptions (e.g., trials requiring two years of field work) will be noted in the contract and dates adjusted accordingly.

8.0 Constraints

The field trials will be subject to the forces of nature throughout the planting, growing and harvesting season, this includes lack of pest pressure (in the case of efficacy trials), crop failure, drought, floods, hail, severe winds, freezing, etc. In the event that it is not possible to obtain the required data and crop samples, the contractor is required to **immediately** notify the study director or the study lead at AAFC. At that time, an alternate course of action may be undertaken. However, if it is not possible to take alternate actions, a trial may have to be abandoned. In such a case, AAFC will pay for those costs and expenses incurred by the proponent up until the time it is decided to abandon the trial as per the financial proposal agreed to in the contract and described in Sections 10, 11 and 12 of the terms and conditions.

9.0 Trial termination

Project leads and/or study directors have the right to terminate a trial at any stage of the trial phase. Conditions leading to the need to terminate a trial include low levels or lack of pest pressure, crop failure, weather events, grazing, etc. In addition, data requirements associated with the trial may no longer be necessary. In such a case, AAFC will pay for those costs and expenses incurred by the proponent up until the time it is decided to abandon the trial as per the financial proposal agreed to in the contract and described in Sections 10, 11 and 12 of the terms and conditions. **Crop destruct costs for trials conducted at co-operator locations will be considered if trials are terminated prior to completion.**

APPENDIX D
EVALUATION PROCEDURES & CRITERIA TECHNICAL PROPOSAL

It is essential that the elements contained in the Proposal be stated in a clear manner and in sufficient depth to allow for evaluation by the evaluation team.

1.0 METHOD OF SELECTION – HIGHEST COMBINED SCORE OF TECHNICAL MERIT AND PRICE

1.1 The evaluation process is designed to identify the most qualified contractor to provide services as stipulated in the Statement of Work (Appendix B).

1.2 This section comprises the detailed Proposal requirements that will be used to evaluate Bidders' responses to the Request for Proposal (RFP).

1.3 The mandatory requirements under section 2.0 will be evaluated on a compliant/non-compliant basis. The Proposals must include the necessary documentation to demonstrate this compliance.

Bidders must indicate whether they comply with the mandatory requirements below (section 2.0) and indicate the location (page, paragraph number, etc.) of the information provided in the Technical Proposal to support the requirements.

1.4 The selection of the responsive Proposal will be made on the basis of the **HIGHEST OVERALL SCORE** for both the technical and financial proposals. Highest overall score will be determined by adding the technical and financial points obtained.

The Bidders' Technical and Financial proposals will be scored separately. An Overall Proposal Score will be determined by combining a Bidder's Technical Proposal Score and Financial Proposal Score in accordance with the following weights:

Technical Proposal = 90%

Financial Proposal = 10%

Overall Proposal = 100%

1.5 To be considered Responsive, a Proposal must:

- 1- Meet all the mandatory requirements specified in section 2.0 below;
- 2- Achieve the **minimum passing score (60%) identified overall in rated criteria.**

Proposals which do not meet these mandatory or minimum point requirements shall not be given further consideration.

The responsive Proposal which receives the highest score of the combined points for the **Technical Proposal** rated requirements (90%) and the **Financial Proposal** rated requirements (10%) will be selected as the successful Proposal.

$$\frac{\text{Technical Score} \times \text{Ratio (90)}}{\text{Max Points}} + \frac{\text{Lowest Price} \times \text{Ratio (10)}}{\text{Bidder's Price}} = \text{Combined Score}$$

Example of Method of Selection:

Highest Combined Rating Technical Merit (90%) and Price (10%)			
Calculation	Technical	Price Points	Total Points
Proposal 1 - Tech = 88/100 - Price = \$200.00	$\frac{88 \times 90}{100} = 79.2$	$\frac{*125 \times 10}{200} = 6.0$	= 85.2
Proposal 2 - Tech = 82/100 - Price - \$130.00	$\frac{82 \times 90}{100} = 73.8$	$\frac{125 \times 10}{130} = 9.62$	= 83.42
Proposal 3 - Tech = 76/100 - Price = \$125.00*	$\frac{76 \times 90}{100} = 68.4$	$\frac{125 \times 10}{125} = 10$	= 78.4
* Represents the lowest priced proposal Bidder 1 is successful with the highest combined rating of 85.2			

- 1.6 The cost of the Proposal will be evaluated in CANADIAN DOLLARS, Goods and Services Tax (GST)/Harmonized Sales Tax (HST) excluded, FOB destination for goods/services, Customs Duties and Excise Taxes included.
- 1.7 Failure of a Proposal to provide information in sufficient detail and depth to permit evaluation against the identified criteria may render a Proposal non-responsive. **All Proponents are advised that only listing experience without providing any supporting data to describe where and how such experience was obtained will not be considered to be “demonstrated” for the purpose of the evaluation. All professional experience must be fully demonstrated in the Proposal (i.e., dates, number of years and months of experience).**
- 1.8 The Bidders acknowledge and agree that Canada is not responsible to search for, and therefore evaluate, information that is not properly referenced or is not otherwise provided in accordance with the Proposal Preparation Instructions in Part 2, Article 3.0.
- 1.9 Bidders shall not place any conditions or make any assumptions that attempt to limit or otherwise modify the scope of Work pursuant to the Statement of Work (Appendix B).
- 1.10 In the event two or more responsive proposals achieve the identical COMBINED SCORE, the proposal with the **highest technical score** will be considered the successful proposal.

2.0 POINT RATED REQUIREMENTS

The Bidder should address the rated requirements in the order in which they are listed and in sufficient detail so that an in-depth evaluation is possible. These criteria will be used by Agriculture and Agri-Food Canada to evaluate each Proposal. The assessment by AAFC will be based solely on the information contained in the Proposal. An item not addressed will be given zero (0) points under the point rated system. AAFC may, but is not obligated to, ask the Bidder for clarifications.

The Bidder is requested to use the tables provided to identify where the information can be found in the proposal (i.e.: Identify the page / project number, etc.)

The rated requirements have been selected to provide evaluators the ability to assess bidder's capacity and ability to conduct the trial work for which a proposal has been submitted. The marking scheme reflects a balance between complexities of the criteria evaluated weighted towards the criteria deemed critical to the success of the trial (Each criteria will be marked according to completeness, clarity, and rationales provided).

- 2.1 Cutting and pasting wording from the RFP into the proposal does not constitute demonstrating the requirement. Experience **must** be demonstrated by citing specific examples of work performed that relates to the specific evaluation criteria. If the Bidder's response does not fully and clearly demonstrate that the requirement is met by the information cited, then information provided will not be considered.
- 2.2 The technical bid must substantiate the compliance with the specific articles of Appendix "D", which is the requested format for providing the substantiation. The substantiation must not simply be a repetition of the requirement(s), but must explain and demonstrate how the Bidder will meet the requirements and carry out the required Work. Simply stating that the Bidder or its proposed solution or product complies is not sufficient. Where Canada determines that the substantiation is not complete, the Bidder will be considered non-responsive and disqualified.
- 2.3 For Point Rated Requirements partial points will be awarded based upon each rated criteria.

(a) The incorporated joint venture;

(b) The partnership venture;

(c) The contractual joint venture where the parties combine their resources in the furtherance of a single business enterprise without actual partnership or corporate designation.

4. The joint venture team arrangement is to be distinguished from other types of Contractor arrangements, such as:

(a) Prime Contractor, in which, for example, the purchasing agency contracts directly with a Contractor (prime) who acts as the system assembler and integrator, with major components, assemblies and subsystems normally subcontracted;

(b) Associated Contractor, in which for example, the purchasing agency contracts directly with each of the major component suppliers and performs the integration tasks or awards a separate contract for this purpose.

5. If the Contract is awarded to an unincorporated joint venture, all members of the joint venture shall be jointly and severally responsible for the performance of the Contract.
