QUESTIONS / ANSWERS

Question 3

In reference with item 95 of section I. of the technical specifications, page 20: *Supply and install a quick coupler for the reversible snow plow, with integrated tilting device.*

Are you referring to a type of coupling device (reverse J-rod) so that you can remove the front plow only and keep the female and male part of the harness on the vehicle?

Or only that the female part to the harness detaches completely with the snow plow, leaving no hydraulics, only the fixed male part to the vehicle, or both methods?

Answer 3

Only that the female part to the harness detaches completely with the snow plow, leaving no hydraulics only the fixed male part to the vehicle.

Question 4

In reference with item 97 of section I. of the technical specifications, page 20: *Supply and install auxiliary LED headlight.*

Where should auxiliary LED headlight be installed and oriented towards what?

Answer 4

Because the plow will obstruct factory lighting, the auxiliary LED headlight should be front mounted led light facing forward.

Question 5

In reference with item 100 of section I. of the technical specifications, page 20: *In cab manual controls easily accessible for the driver.*

Can the snowplow and harness control be operated using a 100% proportional joystick, all installed in a central console with all the switches for the accessories installed on the vehicle?

Answer 5

Yes.

Question 6

In reference with item 102 of section m. of the technical specifications, page 20: *5-section sectional control valve installed outside of the cabin and actuated by sealed cables and levers inside the cabin. All required fittings and hoses shall be supplied.*

Can the control valves installed outside the cabin be of the hydraulic / pneumatic type?

Answer 6

Yes.

ALL OTHER TERMS ET CONDITIONS REMAIN THE SAME.
