1.1 ADDENDUM

- .1 The following changes and clarifications to the drawings and specifications are to be incorporated in the tender documents:

.1 Specifications:

.1 Section 01 52 00 – Construction Facilities

.1 1.7.1

Revise to read: "Site security and protection of all materials and building are the responsibility of the Contractor. Methods of securing site (ie. fencing, barricades, etc.) shall be coordinated with the Departmental Representative."

.2 Clarifications:

.1 Condition of Structural Steel:

While no records exist regarding assemblies of the existing bathhouse, based on limited visual observation of the structure above the existing plaster ceiling finish, it is believed that the structure is comprised of a concrete slab supported by open web steel joists that span the width of the building. Their size, loading capacity, condition, etc. is unknown.
