Enquiries - Bid Solicitation - Clause # 2.3

To ensure consistency and quality of information provided to bidders, significant enquiries received and the replies to such enquiries will be provided simultaneously to bidders to which the bid solicitation has been sent, without revealing the sources of the enquiries.

Here are the questions which we have received until now:

Question 1: Ref.: Annex B, Characteristics # 1.3 Engine and 1.4 Allison Automatic Transmission.

Characteristic # 1.4 Allison Automatic transmission can only reach 1850 (lb-ft) torque instead of 1900 as required in characteristic 1.3 Engine. Can you please review your requirements for the engine accordingly?

Answer 1: Characteristic # 1.3 Engine is amended as follows:

| Delete: | |
|---------|---|
| 1.3 | Engine: <ul style="list-style-type: none">• six (6) cylinder,• diesel,• minimum of 380 HP with 1900 (lb-ft) torque.• Engine brake not required. |
| Insert: | |
| 1.3 | Engine: <ul style="list-style-type: none">• six (6) cylinder,• diesel,• minimum of 430 HP at 2000 RMP and 1,650 (lb-ft) of torque at 950 RPM,• Engine brake not required. |

The required power of the engine is due to the load (the scraper and the runway sweeper broom) that the truck must be able to push to maximize its efficiency.

Question 2: Ref.: Annex B, Characteristic # 3.2 Cabin in aluminum

Do you want the totality of the cabin made of aluminum?

Answer 2: Yes; characteristic # 3.2 Cabin in aluminum is amended as follows:

| Delete: | |
|---------|--|
| 3.2 | The cab will be made of aluminum for protection against rust since the vehicle will be used in the seaside, with abrasives and stored outside. |
| Insert: | |
| 3.2 | The totality of the cab will be made of aluminum for protection against rust since the vehicle will be used in the seaside, with abrasives and stored outside. |

Question 3: Ref.: Annex B, Characteristic # 4.1.1 Snow plow of 144 inches long by 54 inches high.

A snow plow of 12 feet with 42 inches at each of the exit as well as in the center; would it be accepted?

Answer 3: No, given the climatic conditions at Lourdes-de-Blanc-Sablon, i.e. the amount of abundant snow and in order to meet operational needs, the snow plow must have the following dimensions: 144 inches long by 54 inches high.

Question 4: Ref.: Annex B, Characteristic # 4.4 Raising system built into the snow scraper.

A raising system using a 4" x 12" cylinder with a chain lift system to raise the plow; would it be accepted?

Answer 4: Yes.

All other terms and conditions of the solicitation remain the same.
