AMENDEMENT 002

Title: Bandwidth aggregation system

Included in the present amendment:

1. Questions and answers 5 and 6

QUESTIONS AND ANSWERS:

Question 1: Many Government of Canada requirements for IT equipment now include a Supply Chain Integrity check to ensure that no untrusted equipment, software or services are used in the delivery and/or support of Government of Canada (GC) services. Since this Router equipment may be used for sensitive communications, shouldn't the Supply Chain integrity requirements be included as part of this RFP?

Answer 1: No, Supply Chain integrity requirements are not included as part of this RFP.

Question 2: 5.1.3.3: Be able to decrypt traffic coming in from outside the private tunnel. Can you clarify what they meant here?

Answer 2: The Department of National Defence uses specific encryptors for its classified networks. The system needs to let the encrypted traffic through without modifying the encrypted data integrity.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
