Question 1

In Annex A (a) (i) Would the Crown accept the Intel Core i5-8365U Instead of Intel Core i5-8350U?

Answer 1

Yes. This will be acceptable.

Question 2

In Annex A (h) (d) Would the Crown accept the USB-C to VGA adapter to enable the VGA port for the laptop?

Answer 2

Yes. This will be acceptable.

Question 3

In Annex A (n) (ii) Would the Crown accept Windows 10 version 1803 instead of version 1607, Version 1607 is not compatible with 8th gen processors. Please see the reference "https://docs.microsoft.com/en-us/windows-hardware/design/minimum/windows-processor-requirements"

Answer 3

Canada is aware of the compatibility correlation of processor generations and Windows update versions. In order to be compliant the OEM must have maintained device driver compatibility to update version 1607 with their 8th generation processor based device. At this point in time the client cannot update their deployed version past 1607.
