Line Stripping and Painting Services, Banff, Jasper, Yoho, Kootenay, Glacier and Mount
Revelstoke National Parks

Amendment 001

This amendment is raised to provide responses to bidder questions.

A. Questions and Answers

Q1. When we look at the bid price and divide the litres of yellow (36340) and by the kilometres of yellow (1298), it doesn't not equal 37.5 litres, which is what you are requesting. It comes to 27.99 litres per kilometre.

If we take 1298 kms of yellow x 37.5 lits (litres you are requesting per km), it should be 48,675 give or take 3%. So what happens when we have not used all the kilometres as stated on the bid sheet, but we have used all the litres listed? Do we consider this job completed then when the litres are used?

A1. There is no anticipated amendments for additional quantities of paint you can consider in your bid that work will be complete when the paint has been used.

Q2. What handwork is required? Is it just the hatching?

A2. Just hatching.

Q3. What is the dry mil thickness that you want us to achieve?

A3. We only specify wet application rate.

Q4. What is the retro-reflectivity that you are trying to achieve?

A4. Shall meet BCMOTI spec 321.06.01 (h): 200mcd/m²/lux for white paint and 150mcd/m²/lux for Yellow paint 30 days from time of application, and; 150mcd/m²/lux for white paint and 100mcd/m²/lux for Yellow paint to October 15th of the calendar year in which the line was painted.

Q5. During Phase 1: it states to complete the yellow centerlines on the Transcanada through Yoho and Banff National Park - Can the contractor complete a shoulder at the same time or is it just strictly the yellow centerline?

A5. Yes as long as phase 1 is completed on schedule.

Q6. Question: Same question for hwy 93 S – instead of only catching the yellow centerline can the contractor complete a shoulder as well?

A6. Yes as long as phase 1 is completed on schedule.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
