## **Amendment 012**

This amendment is raised to advise industry of the CHER project's updated engagement strategy and to extend the Request for Information (RFI) until June 1, 2020.

As a result of the issuance of Amendment 010 to this RFI, the CHER project team received a number of invitations for factory tours and to observe equipment demonstrations. The factory tours and demonstrations will benefit the quality and technical content of the procurement documentation and will not influence the evaluation of any bids.

The visits will take place between February 2020 and May 2020. Consequently, there will be a delay in releasing the draft Requests for Proposal to industry until after May 2020 to ensure that all information from this extended industry engagement is appropriately addressed in the procurement documentation.

Ottawa-based one-on-one meetings may be requested at any time. To facilitate organization, the CHER project team will be reserving Thursday mornings for such meetings. These meetings may be in-person, by teleconference or video conference. We request that the meetings are held between the hours of 9 am and 11 am Eastern Standard Time, and take no longer than one hour. Meetings will normally occur five weeks after the date of request.

Participation in site visits, one-on-one meetings, or any other discussions, is not mandatory and will not affect the opportunity for suppliers to participate in follow-on procurement activities related to the project.

**All other terms and conditions remain unchanged.**
