THE PURPOSE OF AMENDMENT 001 IS TO ANSWER THE QUESTIONS:

Question 1 The first portion it is mentioned Copy submitted Master & 2 sample construction are these provided with our bid or only to the awarded contractor?

Answer 1 Yes as Per Annex B, you must provide the Master and 2 sample construction with your bid.

Question 2 In the special instruction. Do we have to provide qty 5 books as a sample with our bid or only to the awarded contractor?

Answer 2 Yes as per Annex B special instructions, five samples must be provided as part of your bid.

Question 3 Would DND accept the front and back cover to be plasticized using Blackhawk 16pt instead of 32 pt. The covers would be just as hard and they would be waterproof

Answer 3 DND is requesting bids be based on the specs as provided in the technical package.

Question 4 The 4 sheets of black pencil carbon are to be perforated which was a must on the older version when tape used to hold the field message book together. With this version of using wire O the need for perforated is not really required since the carbon sheets will tear of easily on the wire loop. On the older models there was a need for these perforated holes.

These 2 changes would not remove any functionality to these field message book. Presently the covers are not waterproof and having this change would only bring a benefit to these books. If DND would agree to these changes a few sample could be provided for acceptance.

Answer 4 For this solicitation DND is looking for the item to be produced as per the provided spec.

All other terms and conditions remain unchanged
