This amendment is raised to address the following:

- To respond to questions received during the solicitation period

### **QUESTIONS AND ANSWERS**

In regards to the Mandatory Requirements identified in section 2.2 in Annex A & C:

Q1: Section 3.18 Must be tablet or keyboard data collector and possess a full keypad as part of the hardware  
As "Part of the hardware" do you mean built in, as one piece, or can it be a removable keyboard?

A1: This must be a one-piece unit with the keyboard as part of the hardware

Q2: In Annex "C" the following 5 criteria points appear to be cut-off: 3.15, 3.21, 3.5, 3.6, and 5.3. Would you please let me know where I can find the mandatory technical criteria points in full?

A2: Please find full texts in Annex A.

Q3: In Annex "C", the mandatory technical criteria points 1.28 and 1.4 (the second point 1.4 located on page 20) refer to "Fixpoint". "Fixpoint" appears to be manufacture specific vocabulary, not industry standard. Can you please provide me with a clear definition of the wording.

A3: Fixpoint should read fixed points which refers to common points from which other points are referenced or measured.

Q4: Point 1.21 states: "Must be able to functionally operate in all weather conditions (e.g. rain, snow, bright sun, sleet, heat, dust, fog, wind gusts up to 40 km/h) and be configured to measure under these conditions". Can it be changed to an exact measureable standard rating such as IP65?

A4: No change to section 1.21.

**All other terms and conditions remain unchanged.**
