

r54224 Q&A

Q1: Would a 20" pole be acceptable?

A1: Yes

Q2: For slider mount in technical requirements, as our monitor arm with VESA plates have the function and features similar to slider mounts and arms can be adjusted easily in horizontal direction, is it acceptable to monitor arms with VESA plates having two arms that can adjust them in horizontal direction without needing slider mounts?

A2: Not acceptable

Q3: Is it acceptable if screens can be placed in portrait or landscape orientation?

A3: need to be able to rotate the orientation

Q4: Would you clarify what do you mean by 180° lock-out feature?

A4: be able to rotate on the post 180 degrees
