Amendment 002 is raised to answer the questions below:

Question 1: Will the Consultant be reimbursed separately for Project Management and Reporting Time (liaison with PWGSC personnel, dispatching technicians, reporting concrete test results, soils and asphalt test results, etc.) or is the cost for this service to be included in the unit price for each test?

Answer to Question 1: Project Management and reporting time should be included in the technician's rate or included in the price for each test, as applicable.

Question 2: In Annex B Section 3.4, are there are no standard test methods listed for the following tests:

- c. Petrographic Number
- d. L.A. Abrasion
- e. Sieve Analysis
- f. Specific Gravity and Absorption
- g. Magnesium Sulphate Soundness
- h. Organic Determination
- i. Crushed Faces Analysis

Can we receive clarification on test standards for each of these tests (CSA, ASTM, NSTIR, Etc.)

Answer to Question 2: If not indicated, follow NSTIR test standards.

Question 3: Section 4.10 outlines Canada's requirements for immediate testing upon delivery of samples and reporting of results as soon as they are known. Please advise if there are any defined turnaround times requirements for laboratory testing.

Answer to Question 3: Times for various tests vary considerably. Follow NSTIR turnaround times for reference.

All Other Terms and conditions remain the same.
