Amendment 002

This amendment is being raised to distribute the answers to bidder questions.

A. QUESTIONS AND ANSWERS

Q7 Is providing a reference project for each type of project listed in Section 3.2.3 a mandatory requirement (pass/fail)?

A7 The degree to which the mandatory requirements are met shall be graded according to Section 3.3 – Evaluation and Rating. Proposals that do not meet the mandatory requirements identified in Sections 3.2.1-3.2.4 will be evaluated, however will not be eligible for the maximum possible points for the applicable criterion.

Q8 In order to meet the project examples requested in Section 3.2.3, can the Prime consultant use examples from subconsultants?

A8 As per 3.2.3.1, *The firm's participation in these projects must have involved the scope of services listed in the Required Services (RS) section.* Projects completed by subconsultants should only be identified if they clearly relate to the delivery of the Required Services (RS) of this RFSO, as per Sections 3.2.3.2 and 3.2.3.3.

Q9 Does Parks Canada Agency require resumes for all personnel listed in Section 3.1.4?

A9 Resumes should be provided for the key personnel as per Section 3.2.4.3.

Q10 One of the possible scope items under Section G1 2.1 includes Highway Twinning which seems a little out of scope for a structural SOA. We understand that road tie ins may fit into this however but strictly a highway twinning seems to fall under the Civil SOA - Highway (5P420-19-0372/A) that was issued by Parks Canada on December 23rd 2019. Could you please confirm the scope surrounding "Highway Twinning"?

A10 This scope may include, but is not limited to, new bridge construction, alignment and feasibility reviews of bridge design including options analyses, phasing of bridge construction/rehabilitation in relation to overall roadway construction, bridge/roadway tie-ins, lifecycle planning of existing bridge assets in relation to roadway twinning schedule.
