This revision 005 is raised to answer the following questions:

Question:

Regarding the pricing for year 2 and 3, our supplier has made an interest point, because of the pure lead based battery requested, the prices are controlled by the stock market as lead is a commodity and pricing futures on lead is very dangerous as for a committed price. Can there be more clarification on this please?

Answer:

We cannot change our requirement, and will not address a price index or pricing for Lead.

- - -

Question:

The Manufacture doesn't load the batteries on the pallets that is requested as outline in the solicitation Pallet # 2: Plywood Block Pallet (Double sided, four-way entry, reversible), thus having to have a custom build of the pallet could significantly increase the cost. Would it be possible to request a standard Manufacture pallet for this product as outlined in the solicitation Pallet # 1: Standard Two-Way Stringer Pallet? Otherwise the batteries will have to be re stacked on the requested pallet #2 and a much higher price, in addition to having to make them.

Answer:

ANNEX C - Amendment to Palletization Clause D6010C as stated in the solicitation is a DND requirement and cannot be changed.

- - -

Question:

Would it be possible to get an extra 3-4 day to complete the bid?

Answer:

As there are no changes permitted to ANNEX C - Amendment to Palletization Clause D6010C, and no changes to the pricing format, there is no need to extend the closing date.
