This amendment 001 is being raised to incorporate the following information into Solicitation No W6895-200048/A:

Questions and Answers

Q1: Please confirm if "battery maintainer" refers to battery blanket (In reference to Annex "D" Item 3.e)

A1: Battery Trickle charger is preferred

Q2: Please clarify what the term "control panel heater" is referring to (In reference to Annex "D" Item 3.e)

A2: This refers to any available sufficient heating source to ensure proper and consistent operation through a wide range of cold temperatures, i.e. a heater unit with a blower fan to circulate heated air to ensure gauges and equipment remain operational.

Q3: Please clarify if Mar 31st, 2020 is mandatory or preferred delivery date

A3: Preferred.

Q4: Will you accept (16) pieces each 12" x 12" duct instead of the above?

A4: No, the reduced diameter size may have a negative effect on the desired air flow volume. (In reference to Annex D Item 8)

Q5: No diagnostic tool is needed for this unit. Can you revise this requirement? (In reference to Annex D Item 10)

A5: No, the desire to have a diagnostic tool is imperative to our post warranty ability to troubleshoot and repair this piece of equipment in the event it is not operational.
