THIS SOLICITATION AMENDMENT IS RAISED TO:

1. Provide clarification and answers to questions from potential suppliers.

QUESTIONS AND ANSWERS:

Question 1	Paragraph 3.5.2 (f), you are asking for a 12-foot Winged Reversible Snow Plow. When you specify hydraulic gates at each end of the snow plow, are you looking for a separate 12 foot wing attachment, with push pole, to be included with the 12 foot reversible snow plow? Are the required wings located at each end of the reversible snow plow?
Answer 1	The Winged Reversible Snow Plow described at Paragraph 3.5.2 (f) is a single plow with wings at both ends (referred to as gates in your question) and does not include what is normally referred to as a Plow Wing attachment. It must meet all requirements described at Paragraph 3.5.2 (f) and in regards to the clarifications above must: Be Reversible, in that it must discharge on both sides when required; Consist of a center moldboard panel and two hydraulically adjustable side panels on the ends (both ends, left and right); Have side panels of at least at least 762 mm wide that can be rotated 90 degrees towards the back and 90 degrees towards the front.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
