

### **Construction Logistic Details**

Bidders shall make themselves aware the space limitations and of the challenges with working at these sites.

As per the site plan available in Appendix C, the rear tower is located between the driveways of two private homes on Sandwich Street. Agreements have been entered into between the home owners and Coast Guard to allow the work to proceed by contract. Per the terms of the agreements, work with heavy equipment shall proceed primarily from the driveway at 62 Sandwich Street. Passenger vehicles as well as light weight equipment and materials can be stored in the driveway at 66 Sandwich Street. And if heavy equipment is not in use for more than four consecutive days, it shall be removed from the premises.
