This revision is raised to answer the following questions:

Question 1:

Is the rough estimated yearly usage 216 battery per destination = 432 battery in total?

Answer 1:

The figures are not an estimated yearly usage. A purchase of 24 to 72 units will have a unit price of \$___ each; etc.

Question 2:

You have provided 3 different part numbers. Will you accept any of them? or do we have to provide a pricing for the 3 parts?

Answer 2:

A supplier may submit multiple offers, hence offer only 1 or all, however only one (1) standing offer will be awarded for the one (1) type of battery that will win the evaluation process.

Question 3:

Concerning this statement: If Bidder is requesting the exchange rate fluctuation protection, a completed Claim for Exchange Rate Adjustments form (PWGSC-TPSGC 450) must be included with submitted Offer. How will we know the % change from now? I mean it should be on time of invoice right?

Answer 3:

Please refer to SACC Manual, clause C3010T, for further information on usage of form 450.
