## **RISO – Medical Isotopes**

*Amendment No. 001 is hereby issued to modify and respond to questions raised during the solicitation period in regards to Request for Proposal No. W7702-206228/A and to revise Annex B as follows:*

**Q1** On p.17 of the document item #1 description is “1.0 – 3.0 Ci Tc-99mm Generator”. As mentioned in the previous RISO done in 2017, 1.0 – 3.0 Ci represents the size of the generator and prices differ from one size to another. If you want to receive pricing for each generator size they should be on separate lines i.e. 1.0Ci, 1.5Ci, 2.0 Ci, 2.5 Ci, 3.0Ci as we cannot provide an identical price for all generator sizes.

**Q2** in line 15 from the Pricing Table in Annex B, you are requesting pricing for additional isotopes. This is quite a vague description and covers quite a few products and therefore we cannot put a single price value on the line. Is there a specific isotope that is being referred to? If not, we can refer to additional Annex with a list of items and their respective pricing.

Line 17 below would not apply in this case because standing order transport charges are used when a “standing order” is placed to be shipped every week. It is our understanding that only periodic shipments are required (Spot Order), is that correct or will there be weekly orders shipped?

**A1 & A2:** Reference Annex B – Basis of Payment and amend as follows:

**DELETE:** in its entirety

**INSERT:** the following revised Annex B – Basis of Payment **TO REPLACE THE PREVIOUS AND BE SUBMITTED WITH YOUR BID AS YOUR FINANCIAL PROPOSAL.**

**ANNEX B**

**BASIS OF PAYMENT**

It is **MANDATORY** that Offeror's submit firm, all-inclusive prices/rates for the period of the proposed Standing Offer Agreement for all items listed hereafter.

**THIS SECTION, WHEN COMPLETED, WILL BE CONSIDERED AS THE OFFEROR'S FINANCIAL PROPOSAL.**

Offerors shall provide offers as per unit of issue requested. It is the responsibility of the Offeror to provide conversion to the unit of issue requested. Failure to do so will render the offer non-responsive without further consideration.

Should there be an error in the extended pricing of the Offeror's proposal, the unit pricing shall prevail and the extended pricing shall be corrected in the evaluation. Any errors in the quantities of the Offeror's proposal shall be changed to reflect the quantities stated in the RFSO. The quantities specified below are provided for evaluation purposes only.

The estimated quantities specified below are provided for evaluation purposes only and does not represent a commitment by Canada.

Rates quoted must remain firm for the period of the Standing Offer Agreement. Rates MUST include ALL costs associated with providing the requirement in accordance with Annex A – Statement of Requirement attached herein. GST, if applicable, is not included and is to be shown as a separate item on any resulting invoice.

FOB Destination:

Defense Research and Development Canada - Suffield Research Centre  
Building 560  
560 Mount Sorrel Road  
Ralston, AB T0J 2N0

Payment will be made in accordance with the following pricing.

					<b>Subtotal (v):</b>	<b>\$</b>

\* The Extended Price for Additional Medical Isotopes is calculated by subtracting the **discount** quoted to the total estimated expenditure. Example: Year 1, \$500.00 estimated expenditure; 10% discount quoted = \$500.00 - (\$500.00 x 10%) = \$450.00

**Total Evaluated Price: Subtotal (i) + (ii) + (iii) + (iv) + (v) = \$ \_\_\_\_\_**

*If your bid has already been forwarded and you wish to revise the same, this revision should reach the Bid Receiving Unit identified before the closing date. The bid number and closing date are to be clearly identified.*

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
