Enquiries - Bid Solicitation - Clause # 2.3

To ensure consistency and quality of information provided to bidders, significant enquiries received and the replies to such enquiries will be provided simultaneously to bidders to which the bid solicitation has been sent, without revealing the sources of the enquiries.

Here are the questions which we have received until now:

QUESTION-3

Is the Coating sector Linear?

ANSWER – 3

The coating as to be applied with a logarithmic response to maintain proper angular resolution through higher attenuation.

QUESTION-4

It is called out for AR coating on both sides, mechanically it would be easier and less costly if we did an AR coating on the back only and then coat the neutral density filter coating on the front side. Would that be acceptable?

ANSWER – 4

Yes this proposition is acceptable.
