PART 1 - GENERAL INFORMATION

1.1 Security Requirements

There is no security requirement applicable to the Contract.

1.2 Statement of Work

The Work to be performed is detailed under Annex 'A' of the resulting contract clauses.

1.3 Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days from receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

1.4 Trade Agreements

The requirement is subject to the provisions of the Canadian Free Trade Agreement (CFTA).

1.5 Procurement Ombudsman

The Office of the Procurement Ombudsman (OPO) was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at opo-boa@opo-boa.gc.ca. You can also obtain more information on the OPO services available to you at their website at www.opo-boa.gc.ca.

PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Revision to Departmental Name: As this solicitation is issued by Fisheries and Oceans Canada (DFO), any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this solicitation, including any individual SACC clauses incorporated by reference, will be interpreted as reference to DFO or its Minister.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The [2003](#) (2019-03-04) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

2.2 Submission of Bids

Bids must be submitted only to Fisheries and Oceans Canada (DFO) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile to DFO will not be accepted.

2.3 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than 5 calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in New Brunswick.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound/saved sections as follows:

Section I: Technical Bid (one soft copy in PDF format)

Section II: Financial Bid (one soft copy in PDF format)

Section III: Certifications (one soft copy in PDF format)

Section IV: Additional Information (one soft copy in PDF format)

The maximum size per email (including attachments) is limited to 10MB. If the limit is exceeded, your email might not be received by DFO. It is suggested that you compress the email size or send multiple emails to ensure delivery. Bidders are responsible to send their proposal and to allow enough time for DFO to receive the proposal by the closing period indicated in the RFP.

For bids transmitted by email, DFO will not be responsible for any failure attributable to the transmission or receipt of the email bid. DFO will send a confirmation email to the Bidders when the submission is received.

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Section I: Technical Bid

In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment.

Section III: Certifications

Bidders must submit the certifications and additional information required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria

See Annex "G" for details.

4.1.2 Financial Evaluation

The price of the bid will be evaluated in Canadian dollars, Applicable Taxes excluded, FOB destination, Canadian customs duties and excise taxes included.

The maximum funding available for the Contract resulting from the bid solicitation is \$41,850.00 (Applicable Taxes extra). Bids valued in excess of this amount will be considered non-responsive. This disclosure does not commit Canada to pay the maximum funding available.

The maximum funding available, excluding taxes, is the following:

- Firm contract period is \$41,850.00
- Option Year 1 is \$42,935.00
- Option Year 2 is \$44,020.00

4.2 Basis of Selection

4.2.1 Basis of Selection – Mandatory Technical Criteria

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria and be within the maximum funding available to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

In the event of a tie, the contract will be awarded to the contractor who participated in the largest number of sentinel mobile surveys.

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract.

5.1 Certifications Required with the Bid

Bidders must submit the following duly completed certifications as part of their bid.

5.1.1 Integrity Provisions - Declaration of Convicted Offences

In accordance with the Integrity Provisions of the Standard Instructions, all bidders must provide with their bid, **if applicable**, the declaration form available on the [Forms for the Integrity Regime](http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html) website (<http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html>), to be given further consideration in the procurement process.

5.1.2 Contractor's Representative

The Contractor's Representative for the Contract is:

Name: _____
 Title: _____
 Address: _____
 Telephone: _____
 Facsimile: _____
 E-mail: _____

5.1.3 Supplementary Contractor Information

Pursuant to paragraph 221 (1)(d) of the Income Tax Act, payments made by departments and agencies under applicable services contracts (including contracts involving a mix of goods and services) must be reported on a T4-A supplementary slip.

To enable the Department of Fisheries and Oceans to comply with this requirement, the Contractor hereby agrees to provide the following information which it certifies to be correct, complete, and fully discloses the identification of this Contractor:

- a) The legal name of the entity or individual, as applicable (the name associated with the Social Insurance Number (SIN) or Business Number (BN), as well as the address and the postal code:

- b) The status of the contractor (individual, unincorporated business, corporation or partnership:

- c) For individuals and unincorporated businesses, the contractor's SIN and, if applicable, the BN, or if applicable, the Goods and Services Tax (GST)/Harmonized Sales Tax (HST) number:

- d) For corporations, the BN, or if this is not available, the GST/HST number. If there is no BN or GST/HST number, the T2 Corporation Tax number must be shown:

5.1.4 Electronic Payment of Invoices – Contract

The Contractor accepts to be paid using any of the following Electronic Payment Instrument(s):

- () MasterCard Acquisition Card;
- () Direct Deposit (Domestic and International);

5.1.5 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "*former public servant*" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or majority interest in the entity.

"*lump sum payment period*" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"*pension*" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S. 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension?

Yes () No ()

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive?

Yes () No ()

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions

of a work force adjustment program.

h.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

Signature

5.2 **Certifications Precedent to Contract Award and Additional Information**

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

5.2.1 **Integrity Provisions – Required Documentation**

In accordance with the section titled Information to be provided when bidding, contracting or entering into a real procurement agreement of the [Ineligibility and Suspension Policy \(http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html\)](http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html), the Bidder must provide the required documentation, as applicable, to be given further consideration in the procurement process.

The following certification signed by the contractor or an authorized officer:

"I certify that I have examined the information provided above and that it is correct and complete"

Signature

Print Name of Signatory

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

6.1 Security Requirements

There is no security requirement applicable to the Contract.

6.2 Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex "A".

6.3 Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

6.3.1 General Conditions

[2010C](#) (2018-06-21), General Conditions - Services (Medium Complexity) apply to and form part of the Contract.

6.4 Term of Contract

6.4.1 Period of the Contract

The period of the Contract is from date of Contract to May 31, 2021 inclusive.

6.4.2 Option to Extend the Contract

The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to 2 additional 1 year periods under the same conditions. The Contractor agrees that, during the extended period of the Contract, it will be paid in accordance with the applicable provisions as set out in the Basis of Payment.

Canada may exercise this option at any time by sending a written notice to the Contractor at least 15 calendar days before the expiry date of the Contract. The option may only be exercised by the Contracting Authority, and will be evidenced for administrative purposes only, through a contract amendment.

6.5 Authorities

6.5.1 Contracting Authority

The Contracting Authority for the Contract is:

Name: Grace Bowness
 Title: Contracting Officer
 Organization: Fisheries and Oceans Canada
 Directorate: Material and Procurement Services
 Address: 301 Bishop Drive, Fredericton, NB, E3C2M6
 Telephone: 506 429 6269
 Facsimile: 506 452 3676
 E-mail address: DFOtenders-soumissionsMPO@dfo-mpo.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

6.5.2 Project Authority (To be named at contract award)

The Project Authority for the Contract is:

Name: _____
 Title: _____
 Organization: _____
 Directorate: _____
 Address: _____
 Telephone: _____
 Facsimile: _____
 E-mail address: _____

The Project Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Project Authority, however the Project Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

6.5.3 Contractor's Representative (To be named at contract award)

Name: _____
 Title: _____
 Organization: _____
 Directorate: _____
 Address: _____
 Telephone: _____
 Facsimile: _____
 E-mail address: _____

6.6 **Proactive Disclosure of Contracts with Former Public Servants**

By providing information on its status, with respect to being a former public servant in receipt of a [*Public Service Superannuation Act*](#) (PSSA) pension, the Contractor has agreed that this information will be reported on departmental websites as part of the published proactive disclosure reports, in accordance with [Contracting Policy Notice: 2012-2](#) of the Treasury Board Secretariat of Canada.

6.7 **Payment**

6.7.1 **Basis of Payment**

6.7.1.1 The Contractor will be paid in accordance with Annex “B” – Basis of Payment

6.7.1.2 All prices and amounts of money in the Contract are exclusive of the Goods and Services Tax (GST) or Harmonized Sales Tax (HST), whichever is applicable, unless otherwise indicated. GST or HST, to the extent applicable, will be incorporated into all invoices and progress claims for goods supplied or work performed and will be paid by Her Majesty. The Contractor agrees to remit to Canada Revenue Agency any GST or HST paid or due.

6.7.1.3 Any payment by Her Majesty under this contract is subject to there being an appropriation for the fiscal year in which the payment is to be made.

6.7.2 **Limitation of Price**

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work.

6.7.3 **Monthly Payment**

Canada will pay the Contractor on a monthly basis for work performed during the month covered by the invoice in accordance with the payment provisions of the Contract if:

- a. an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- b. all such documents have been verified by Canada;
- c. the Work performed has been accepted by Canada.

6.7.4 **Electronic Payment of Invoices – Contract**

The Contractor accepts to be paid using any of the following Electronic Payment Instrument(s):

- a. MasterCard Acquisition Card;
- b. Direct Deposit (Domestic and International);

6.8 Invoicing Instructions

6.8.1 Payments will be made provided that:

6.8.1.1 The invoice(s) must be emailed to DFO Accounts Payable, at the email address indicated below:

Email: DFO.invoicing-facturation.MPO@canada.ca

6.8.1.2 The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

Each Invoice must have the following:

Indicate the **Contract Number**: F5211-200084

Indicate the name of the **Project Authority**: To be named at contract award

Indicate the name of the **AP Code**: To be named at contract award

6.9 Certifications and Additional Information

6.9.1 Compliance

Unless specified otherwise, the continuous compliance with the certifications provided by the Contractor in its bid or precedent to contract award, and the ongoing cooperation in providing additional information are conditions of the Contract and failure to comply will constitute the Contractor in default. Certifications are subject to verification by Canada during the entire period of the Contract.

6.10 Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in New Brunswick.

6.11 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (b) 2010C (2018-06-21), General Conditions: Services (Medium Complexity);
- (c) Annex A, Statement of Work;
- (d) Annex B, Basis of Payment;
- (e) the Contractor's bid dated _____ (*insert date at contract award*)

6.12 Procurement Ombudsman

6.12.1 The Contractor confirms that it has read the Code of Conduct for Procurement and agrees to be bound by its terms.

6.12.2 The office of the Procurement Ombudsman (OPO) was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,300.00 for Goods and under \$101,100.00 for Services. You

have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at opo-boa@opo-boa.gc.ca. You can also obtain more information on OPO services available to you on their website at www.opo-boa.gc.ca.

6.12.3 For further information, the Contractor may refer to the following PWGSC site:

<http://www.tpsgc-pwgsc.gc.ca/app-acq/cndt-cndct/contexte-context-eng.html>

6.13 Insurance – Specific Requirements G1001C (2013-11-06)

The Contractor must comply with the insurance requirements specified in Annex C. The Contractor must maintain the required insurance coverage for the duration of the Contract. Compliance with the insurance requirements does not release the Contractor from or reduce its liability under the Contract.

The Contractor is responsible for deciding if additional insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any additional insurance coverage is at the Contractor's expense, and for its own benefit and protection.

The Contractor must forward to the Contracting Authority within ten (10) days after the date of award of the Contract, a Certificate of Insurance evidencing the insurance coverage and confirming that the insurance policy complying with the requirements is in force. For Canadian-based Contractors, coverage must be placed with an Insurer licensed to carry out business in Canada, however, for Foreign-based Contractors; coverage must be placed with an Insurer with an A.M. Best Rating no less than "A-". The Contractor must, if requested by the Contracting Authority, forward to Canada a certified true copy of all applicable insurance policies.

6.14 Vessel Condition A9141C (2008-05-12)

The Contractor warrants that the vessel provided to Canada is mechanically sound, completely seaworthy, equipped with readily accessible lifesaving equipment, will be adequately manned and in full compliance with the [Canada Shipping Act](#), S.C. 2001, c. 26.

ANNEX "A" – STATEMENT OF WORK

1. Scope

1.1. Title

Sentinel Survey – Mobile Gear – Gulf Magdalene Islands (Project # 4)

1.2. Introduction

With the closure of the Atlantic Cod-directed fishery in 1993 for many stocks in the Northwest Atlantic, information on the status of the stocks was no longer available to scientists of the Department of Fisheries and Oceans Canada (DFO) from the commercial fishery. This information was previously used in combination with information from research vessel surveys to assess the status of the resources. Based on a recommendation by the Fisheries Resource Conservation Council (FRCC), DFO began a sentinel survey program in 1994 (formerly known as sentinel fisheries) to collect such information.

Sentinel surveys are not commercial fisheries, but instead consist of surveys involving limited removals from the stocks under a pre-determined scientific protocol for the purpose of collecting biological information. The primary objective of these surveys is to obtain information on trends in the stocks (e.g. whether stocks are increasing or decreasing). However, these surveys are also important to study the distribution, migration and general biological characteristics (e.g. condition, maturity stages) of various fish species, and collect information on water temperature.

1.3. Budget

In order to harmonize the budget allocation among the regional associations involved in the Sentinel Project and to provide science and the industry with valuable and dependable dataset, a maximum price per fishing units of \$1,350 will be paid in 2020. DFO may also exercise an option for the subsequent years at a maximum price per fishing unit of \$1,385 in 2021 and \$1,420 in 2022, to be determined at the time of contract renewal.

1.4. Background, Assumptions and Specific Scope of the Requirement

Since 1994, sentinel survey projects have been conducted in the southern Gulf of St. Lawrence (NAFO division 4T). Selected commercial fishing vessels follow a pre-determined scientific protocol to gather information on the status of Atlantic Cod stocks in the southern Gulf of St. Lawrence. In 1994 and 1995 the sentinel projects were largely funded by the Department of Human Resource Development, with DFO providing scientific expertise to oversee the projects and the funds for scientific equipment and observer coverage. Since 1996, the sentinel surveys have been funded almost entirely by DFO.

An Atlantic-wide review of the sentinel surveys in 2002 resulted in a decrease in scope of the surveys in the southern Gulf of St. Lawrence. In 2020, projects similar to those of previous years will continue for mobile gear (otter trawl). All work will be conducted under contract to fish harvester organizations.

2 Requirements

2.1 Objectives of the Requirement

The mobile gear survey will be conducted by a maximum of four (4) vessels that will fish a total of 124 stations (31 stations per vessel) in four (4) designated sampling areas of the southern Gulf of St. Lawrence (NAFO 4T) (Figure 1). Each survey strata (an area of the survey area determined by depth ranges) will be covered by a minimum of two (2) vessels to allow for vessel comparisons and standardization across the NAFO 4T area. This will also ensure coverage of the area in case of vessel breakdown. All vessels will conduct the survey between August 1 and August 31.

The Department of Fisheries and Oceans will provide each vessel a 300 Star Balloon bottom-trawl with “Rockhopper footgear”. Each vessel must have appropriate doors and horsepower capable of fishing the provided trawl (see 2.3 Specifications and Standards).

The final list of latitudes and longitudes of the stations will be sent to the contractor after contract award. There will be no changes or substitutions to the stations assigned, unless approved by the Project Authority or representative.

2.2 Tasks, Activities, Deliverables and Milestones

The following rules will apply for sets to be payable under this contract:

- Each station will consist of a 30-minute tow at 2.5 knots (regular sets).
- Tow duration may be shortened only in situations where unsuitable ground or fixed gear (e.g. lobster gear, herring nets) is encountered towards the end of the tow. In such instances, a minimum tow duration of 20 minutes will be accepted as a completed set.
- Any tow shorter than 20 minutes will be considered as invalid and will have to be fished again at the same station location or at an alternate station in the same stratum.
- In the event the net is significantly damaged during fishing operations, the tow will be considered invalid and an alternate station in the same stratum will have to be fished instead once the trawl has been repaired.
- In the event of a gear malfunction (e.g. doors crossed or a broken cable between the doors and the trawl) the set will be considered invalid and will have to be fished again at the same station location.
- If a station cannot be fished because of unsuitable ground or the presence of fixed gear, an alternate station in the same stratum will have to be fished instead.

Figure 1: Location of each sampling area

Each vessel must have two (2) observers on board to collect the required information. After successful completion of each tow, the fishing vessel crew and the observers will record all information pertaining to the catch. The crew of the fishing vessel must assist the observers in sorting of the fish and invertebrate species and in conducting the sampling. Fishing operations may have to be slowed down for that purpose. At each station, information on the fishing location and the complete catch will be recorded. The total catch will be sorted according to species and weighed by species. Length frequency measurements (250 fish per species or the entire catch if less than 250 fish are caught) will be taken for Atlantic Cod, White Hake, Atlantic Herring, American Plaice, Witch Flounder, Winter Flounder and Yellowtail Flounder (sexed length frequencies are required for these species, except for Atlantic Cod). For all other fish species, the numbers of fish are required (i.e. counted). Otoliths will be collected for Atlantic Cod (1 pair of otoliths per cm length increment) and White Hake (1 pair of otoliths per cm length increment per sex) only. All data will be recorded on standard observer program data sheets; all fields must be completed.

All Atlantic Halibut must be returned to the water immediately, and where it is alive, in a manner that causes it the least harm.

On occasion, special sampling will be required. Examples of special sampling include, but are not limited to: individual weight and length records for Atlantic Cod, sampling for DNA studies of specific species, and collection of fish samples for laboratory analyses. Detailed protocols will be supplied for these collections, if necessary.

Water temperature will be monitored using probes supplied by DFO. The probes will be initialized by DFO and one will be assigned to each vessel. Each probe is to be attached to the trawl on the upper section of the trawl (headline) to avoid interaction with bottom surfaces.

2.3 Specifications and Standards

The following specifications and standards must be met and maintained throughout the contract period:

- A 300 Star Balloon trawl with 12 inch “Rockhopper footgear” must be used for this project. In order to provide an indication of the abundance of juvenile fish, the trawl must be equipped with a 40 mm square liner cod end to retain small fish. The trawl will be provided by DFO and will have to be maintained in proper working condition by the contractor, using spare parts provided by DFO when required.
- The contract vessel will require the appropriate horsepower and doors to fish the 300 Star Balloon trawl with “Rockhopper footgear”. The vessel must have a minimum of 300 horsepower. The doors must be of adequate size for the trawl. Acceptable otter trawl doors include Morgère, Bison # 9, Cosalt doors. The vessel must also be capable of fishing the trawl in water depths of 20 to 200 fathoms.
- The same vessels must be used for the entire project, and no substitution of vessels will be allowed unless the contractor receives written approval from the Scientific Authority for the project or representative.
- Fishing will be limited to daylight hours; a set cannot be started before 6:00 AM or after 8:30 PM (sunrise and sunset, Atlantic Standard Time).
- Both observers must be on the vessels whenever the gear is fished.
- A special fishing license will be issued in the name of each fishing Captain hired through the Contractor for the specified vessel.
- Each vessel will be required to activate a VMS and may be required to install a DFO-provided on-board camera for monitoring purpose.
- In accordance with section 2.2 Tasks, Activities, Deliverables and Milestones the contractor must ensure:
 - that after each haul back, the crew of the fishing vessel and the observers record all information pertaining to the catch. Null sets must be recorded.
 - the crew of the fishing vessel will assist the observers in sorting the fish and invertebrate species and in conducting the sampling.
 - that water temperature probes supplied by DFO will be attached on the upper section of the trawl (headline) during fishing operations.

2.4 Specific requirements for Marine Protected Areas and Marine Refuges

Following the recent announcements on DFO’s Oceans Act, the Sentinel Survey program activities will limit research sampling efforts in protected areas. The sampling protocol has been redesigned to exclude any bottom trawl sampling in protected areas for the entire southern Gulf of St. Lawrence.

2.5 Specific requirements for North Atlantic Right Whales (NARW)

Due to the unprecedented high number of incidents with the NARW in the sGSL since 2017, DFO has decided to implement new measures aimed to protect the NARW, including temporary management area closures. It is important to ensure that the Sentinel Survey program activities are consistent with the management measures. Therefore, a risk averse approach is necessary, and the following measures will be in effect:

- 1) The new management measures will be extended to the entire southern Gulf of St. Lawrence and any fishing activity (trip) must be pre-approved by the Project Authority to ensure that this activity does not conflict with the temporary closure protocol.
- 2) Any fishing activities cancelled due to temporary closures will not be postponed and will not be payable under this contract.
- 3) Any lost gear will have to be reported immediately to the authorities.

2.6 Change to Management Procedures

Any changes to the scope of the project will be discussed by the DFO Project Authority and Contractor and actioned by means of a formal contract amendment issued by the Contracting Authority.

2.7 Ownership of Intellectual Property (IP)

IP will not be generated from the result of this requirement.

3 Other Terms and Conditions of the Statement of work (SOW)

3.1 DFO Support

DFO will be responsible for the following in support of the contract:

- 1) Provision of a suitable fishing trawl, the standard trawl is a 300 Star Balloon with "Rockhopper footgear", along with spare parts in the event that repairs are required.
- 2) Provision of a limited range of scientific equipment (for example temperature probes, measuring boards, balances and specialized equipment for special sampling) to ensure consistency in data collection.
- 3) Provision of standard observer's program data sheets.
- 4) Provision of the final list of latitudes and longitudes of the stations once the contract is awarded.
- 5) A special fishing license issued in the name of the fishing Captain hired through the Contractor for the specified vessel.

3.2 Contractor's Obligations

The contractor will be responsible for the following in support of the contract: See section 2.0.

3.3 Deliverables

The following deliverables must be met in relation to this project:

- 1) All data recorded on observer program forms (trip, catch and length frequencies and others) and certified by an observer company in both hardcopy and electronic format delivered directly from an Observer Company to the Project Authority.

- 2) Samples of otoliths, fish and other samples, as per detailed protocol or special sampling requests. These must be clearly identified with the date, fishing location, and vessel name and project number.
- 3) The collection of temperature data by attaching the DFO supplied temperature probe to the upper section of the trawl (headline) when fishing.

3.4 Location of Work, Work site and Delivery Point

The survey area must occur within the southern Gulf of St. Lawrence (4T). A total of 124 stations (31 stations per vessel) in four designated sampling areas will be sampled (section 2.2). The sampling sites are pre-determined and a list will be given to each contractor after contract award.

Contractors will be paid on the basis of fishing sets that meet with the requirements of the scientific protocols. All the stations in each stratum and assigned to each vessel must be fished. The only exception will be cases where an abundance of fixed gear in the stratum prevents the work. Any fishing sets done outside of the scientific protocols (as to location, time, duration of tow, etc.) will NOT be considered valid, and no compensation will be paid. Furthermore, such tows would not be considered as part of the special fishing license provided by DFO and could therefore constitute a violation of fishery regulations.

3.5 Language of Work

The language of work shall be English or French.

3.6 Special Requirements

- 1) Fishing not consistent with the scientific protocol will contravene the conditions of the fishing license and may result in termination of the contract.
- 2) The collapsible wire mesh transport cage used to ship the trawl to the Contractors must be properly stored, maintained and secured by the Contractors during the project.
- 3) All the equipment provided to the Contractors must be returned, clean and dry, to the Project Authority at the end of the project.

3.7 Insurance Requirements

The Contractor must ensure they maintain adequate insurance during all project work.

4 Project Schedule

4.1 Expected Start and Completion Dates

The project must be completed during the provided time schedule. The fishing services of the Contractor will be required between:

August 1 and August 31, 2020

5 Required Resources or Types of Roles to be Performed

5.1 Fishermen

The contractor must ensure that all participating fishermen are holders of a valid groundfish license in NAFO division 4T and have experience in the groundfish fishery.

5.2 Observers

Observer coverage must be provided by a certified observer company for the southern Gulf of St. Lawrence (4T) (List provided below).

5.3 Monitoring

Dockside monitoring services must be obtained from a dockside monitoring firm certified to provide services in the Gulf of St. Lawrence (List provided below).

6 Insurance

The Contractor must forward to the Contracting Authority within ten (10) days after the date of award of the Contract, a Certificate of Insurance evidencing the insurance coverage and confirming that the insurance policy complying with the requirements is in force as per the insurance conditions attached at ANNEX "C" INSURANCE CONDITIONS.

ANNEX "B" – BASIS OF PAYMENT

In order to harmonize the budget allocation among the regional associations involved in the Sentinel Project and to provide science and the industry with valuable and dependable dataset, a maximum price per fishing units of \$1,350 will be paid in 2020. DFO may also exercise an option for the subsequent years at a maximum price per fishing unit of \$1,385 in 2021 and \$1,420 in 2022, to be determined at the time of contract renewal.

Pricing - Firm contract period – Contract Award to May 31, 2021

All-Inclusive Firm* Price per Fishing Unit (exclusive of tax):	Up to 31 Fishing Units Extended Price (exclusive of tax)
\$	\$

Pricing – Option Year 1 – June 1, 2021 to May 31, 2022

All-Inclusive Firm* Price per Fishing Unit (exclusive of tax):	Up to 31 Fishing Units Extended Price (exclusive of tax)
\$	\$

Pricing – Option Year 2 – June 1, 2022 to May 31, 2023

All-Inclusive Firm* Price per Fishing Unit (exclusive of tax):	Up to 31 Fishing Units Extended Price (exclusive of tax)
\$	\$

* **“ALL-INCLUSIVE FIRM”** Price per Fishing Unit must be a firm price and include all costs for conducting the project - i.e. the gear, charter and operation of the vessel, crew salaries, food, fuel, vessel insurance, repairs and maintenance, observer coverage, dockside monitoring and administration. DFO shall provide the following sampling equipment: measuring board, weigh scale, temperature probe and specialized sampling equipment when required.

NOTES:

- A fishing unit consist of doing one fishing tow with the gear at one pre-determined station and recording all scientific information as per the scientific protocol. Each vessel will have 31 fishing units to complete during the contract.
- DFO will provide the fishing trawl and the following scientific equipment to ensure consistency in data collection: temperature probes, measuring boards, balances and specialized equipment for special sampling.

ANNEX "C" – INSURANCE CONDITIONS

1. The Contractor must obtain protection and indemnity insurance that must include excess collision liability and pollution liability. The insurance must be placed with a member of the International Group of Protection and Indemnity Associations or with a fixed market in an amount of not less than the limits determined by the [Marine Liability Act](#), S.C. 2001, c. 6. Coverage must include crew liability, if it is not covered by Worker's Compensation as detailed in paragraph (2.) below.
2. The Contractor must obtain worker's compensation insurance covering all employees engaged in the Work in accordance with the statutory requirements of the territory or province or state of nationality, domicile, employment, having jurisdiction over such employees. If the Contractor is subject to an additional contravention, as a result of an accident causing injury or death to an employee of the Contractor or subcontractor, or due to unsafe working conditions, then such levy or assessment must be paid by the Contractor at its sole cost.
3. The protection and indemnity insurance policy must include the following:
 - a. Additional insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada as additional insured should read as follows: Canada, represented by Public Works and Government Services Canada.
 - b. Waiver of subrogation rights: Contractor's Insurer to waive all rights of subrogation against Canada as represented by Fisheries and Oceans Canada and Public Works and Government Services Canada for any and all loss of or damage to the watercraft however caused.
 - c. Notice of cancellation: The Contractor will provide the Contracting Authority thirty (30) days prior written notice of policy cancellation or any changes to the insurance policy.
 - e. Cross liability and separation of insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
 - f. Litigation rights: Pursuant to subsection 5(d) of the [Department of Justice Act](#), R.S.C. 1985, c. J-2, s.1, if a suit is instituted for or against Canada which the Insurer would, but for this clause, have the right to pursue or defend on behalf of Canada as an Additional Named Insured under the insurance policy, the Insurer must promptly contact the Attorney General of Canada to agree on the legal strategies by sending a letter, by registered mail or by courier, with an acknowledgement of receipt.

For the province of Quebec, send to:

*Director Business Law Directorate,
Quebec Regional Office (Ottawa),
Department of Justice,
284 Wellington Street, Room SAT-6042,
Ottawa, Ontario, K1A 0H8*

For other provinces and territories, send to:

*Senior General Counsel,
Civil Litigation Section,
Department of Justice
234 Wellington Street, East Tower
Ottawa, Ontario K1A 0H8*

A copy of the letter must be sent to the Contracting Authority. Canada reserves the right to co-defend any action brought against Canada. All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any action brought against it, and Canada does not agree to a proposed settlement agreed to

by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

ANNEX "D" – ADDITIONAL VESSEL CONTRACT CONDITIONS

1. The Contractor must keep and maintain the vessel, engines, gear and equipment in good and sufficient repair for the duration of the Contract and must pay for all necessary repairs, renewals and maintenance.
2. The Contractor must:
 - 1.1. Indemnify and save harmless Canada from and against any claim for loss or damage to the vessel or any other property, engines, gear, or equipment, arising from the charter, and for injury or property of persons aboard the vessel, excepting any injury or damage to property of Canada's employees or agents;
 - 1.2. Ensure that the operations are only carried out by Canada's authorized representatives as specified by the Technical Authority;
 - 1.3. Ensure that approved personal floatation devices for all persons on board are in readily accessible positions at all times;
 - 1.4. Ensure that the use or possession of illegal drugs or alcohol is prohibited. If any member of the crew is found under the influence of such drugs and/or intoxicants while on duty, it will be cause for termination of the Contract for default.
3. If the vessel is disabled or is not in running order or is laid up without the consent of Canada, then Canada will not be liable for payment for the hire of the vessel during this period. If this period exceeds one week, Canada may terminate the Contract immediately for default.
4. If any gear or equipment necessary for the efficient operation of the vessel for the purpose of the Contract is not in good working order for any period of time, then the payment of hire will cease for the lost time, and if during the voyage the speed is reduced by a defect in or breakdown of any part of the hull, machinery or equipment, the time lost will be deducted from the hire. Canada will be the sole judge of the capability of the vessel.
5. If the vessel is unable to operate safely in the work area because of sea or weather conditions, as agreed to by the representative of the Contractor and the representative of Canada, then the charter for the day will be terminated and a pro-rated payment made to the Contractor for that period engaged in the Work in accordance with the terms of the Contract.
6. If the particulars furnished by the Contractor and set out in the Contract are incorrect or misleading, Canada may, at Canada's discretion, terminate the Contract for default.
7. If the vessel is lost or damaged to such an extent as to justify abandonment as for a constructive total loss, Her Majesty may terminate the Contract.
8. The Contractor, by these presents, does hereby remise, release and forever discharge Her Majesty and all employees of Her Majesty from all manners of action, claims or demands, of whatever kind or nature that the Contractor ever had, now has or can, shall or may hereafter have by reason of damage to or personal injury, or both as a result of or in any way arising out of the acts or omission of Her Majesty or employees of Her Majesty pursuant to the terms and conditions of the Agreement or any Contract.
9. The Contractor acknowledges and agrees that this Agreement or any Contract shall in no way replace, substitute or derogate from any of the rights powers if Her Majesty pursuant to the Fisheries Act of

Canada or any other statute, law or regulation of Canada.

10. If a provision or term or condition of this Agreement or any Contract is wholly or partially invalid, this Agreement or Contract shall be interpreted as if the invalid provision, term or condition had not been a part of this Agreement or Contract.
11. The Contractor shall permit Her Majesty all access and egress that is request by Her Majesty to accomplish all inspections deemed necessary by Her Majesty to administer the terms and conditions of this Agreement or Contract.
12. The vessel shall not participate in a commercial fishery while under the terms and conditions of this Agreement or Contract.
13. The Contractor certifies that any price/rate shown herein has been computed in accordance with generally accepted accounting principles applicable to all like products or services sold by the Contractor, that such price / rate is not in excess of the lowest price / rate charged anyone else including their most favoured customer for like quality and quantity of the service, and does not include the provision for discount or commission to selling agents.

ANNEX "E" – VESSEL INFORMATION SHEET

Length of vessel and type of trawl or seine used by the vessels proposed

Vessel Name Nom du Bateau	CFV/BPC	Total Length (In Feet) Longueur Totale (en pieds)	Horsepower Chevaux- vapeur	Amount of Warp & Diameter Montant de Cables et Diametre	Door Type Type de Panneau	Home Port and Province Port d'Attache et province

ANNEX "F" – MANDATORY EQUIPMENT

Gulf Region - Sentinel Surveys

Vessel Name: _____
 Year Built: _____
 Owner's Name: _____
 Address: _____
 Tel # : _____
 Registration # : _____
 # of Crew: _____

Mandatory Equipment Required On-Board Vessels /

<u>Description</u>	<u>On board</u> <u>À bord</u>	<u>How many?</u> <u>Combien ?</u>
Approved standard lifejacket (s) / Gillet(s) de sauvetage approuvé(s)		
Fire Extinguisher(s) / Extincteur(s)		
Approved pyro distress signals (flares) in waterproof container Signaux pyrotechnique de détresse approuvés dans un contenant hermétique		
Equipment for sound signals / Signaux sonores adéquats		
Navigation lights / Feux de navigation		
Fishing Lights and Shapes for fishing Feux et marques pour pêcher		
Radar reflector / Réflecteur radar		
Fire bucket(s) and 1.8 m line Sceau(x) à incendie et 1.8 m de corde		
Lifeboat, skiff, dory or inflatable liferaft Embarcation, skiff, doris ou radeau gonflable de sauvetage		
Fuel tank shut off valve / Valve d'arrêt pour réservoir		
Efficient bilge pumping arrangements Installation efficace de pompage de l'eau de cale		
Anchor, chain, cable / Ancre, chaîne, câble		
Ventilation for engine and fuel tank compartment Ventilation moteur et réservoir de carburant		
VHF radio and call sign / Radio VHF et indicatif d'appel		
Compass / Compas		
First aid kit / Trousse de premiers soins		
Marine charts and publications / Cartes marines et publications		
Tow line / Ligne de remorquage		
Search light and Flash light / Projecteur lumineux et lampe de poches

ANNEX “G” – MANDATORY CRITERIA

Proposals submitted for this requirement must clearly demonstrate that the Bidder meets all of the Mandatory Criteria. Failure to demonstrate this will result in the Proposal being deemed NON-COMPLIANT and given no further consideration.

The Bidder must include the following table in their proposal, indicating that their proposal meets the mandatory criteria, and providing the proposal page number or section that contains information to verify that the criterion has been met.

For the Bidder’s examples and for each of the proposed resources, project experience is to be used to demonstrate compliancy and must include the following information:

- The client organization;
- The dates/duration of the project (month and year);
- A description of the project, including the scope and elements of the framework, and the results/outcomes of the work undertaken by the proposed resources;
- A description of the activities performed by the proposed resources; and,
- The name and contact information of the client Project Authority.

	REQUIREMENT	REFERENCE PAGE IN BID SUBMISSION
M1.	The contractor MUST be a fishing association. A copy of the certificate/license must be submitted.	
M2.	Participating captains MUST be holders of a valid commercial groundfish fishing license for the southern Gulf of St. Lawrence (NAFO 4T). A copy of the license must be submitted.	
M3.	The contractor, either the fishing association or the captain, MUST have a minimum of one (1) year of experience in the groundfish fishery or in sentinel surveys.	
M4.	Observer coverage MUST be provided by a certified observer company for the southern Gulf of St. Lawrence (4T) (see list attached). A copy of the certificate/license must be submitted.	
M5.	Dockside monitoring services MUST be obtained from a certified DMP firm (see list attached). A copy of the certificate/license must be submitted.	
M6.	The contractor MUST have experience in managing project(s) of similar size and scope.	
M7.	The contractor MUST provide a description of the vessel proposed for the project that has the capacity to fish the 300 Star Balloon trawl (minimum 300 horsepower, acceptable otter trawl doors, adequate amount of warp to fish at all depths in NAFO Area 4T), including a completed Annex ‘A’, Vessel Information Sheet, together with the name of the Captain.	
M8.	The Contractor MUST provide proof of insurance or proof of eligibility of insurance coverage.
