This amendment is raised to address the following:

- To respond to questions received during the solicitation period; and
- To revise the solicitation accordingly, as applicable.

Q1) Please provide what the distinction is between commercial and residential work and what impact that would have on the ability to undertake work in a remote location.

A1) Residential construction is referring to construction/renovation of houses, mobile trailers, etc. Since this project is located in three remote communities, we are requesting that you outline previous experience working in locations to demonstrate your experience with logistics, mobilization to remote locations, travel and accommodations.
