## **5.0 RIGHTS OF CANADA**

- 5.1 Canada reserves the right to:

  2. Reject any or all Bids received in response to this RFQ;
  3. Cancel and/or re-issue this RFQ at any time;
  4. Ask the Bidder to substantiate any claim made in their Bid Submission;
  5. Enter into negotiations with one or more Bidders on any or all aspects of their Bid Submission;
  6. Award one or more Contracts;
  7. Retain all Bids submitted in response to this RFQ.

## **6.0 SUBSTANTIATION OF PROFESSIONAL SERVICES RATES**

- 6.1 In Canada's experience, bidders will from time to time propose prices at the time of bidding that they later refuse to honour, on the basis that these prices do not allow them to recover their own costs and/or make a profit. When evaluating the prices for professional services bid, Canada may, but will have no obligation to, require price support for any prices proposed. Examples of price support that Canada would consider satisfactory include:
1. documentation (such as billing records) that shows that the Bidder has recently provided and invoiced another customer (with whom the Bidder deals at arm's length) for services similar to the services that would be provided under a resulting contract, and the fees charged are equal to or less than the price offered to Canada (to protect the privacy of the customer, the Bidder may black out the customer's name and personal information on the invoice submitted to Canada);
  2. a signed contract between the Bidder and an individual qualified (based on the qualifications described in this bid solicitation) to provide services under a resulting contract where the amount payable under that contract by the Bidder to the resource is equal to or less than the price bid;
  3. a signed contract with a subcontractor who will perform the work under any resulting contract, which provides that the required services will be provided at a price that is equal to or less than the price bid; or
  4. details regarding the salary paid to and benefits provided to the individuals employed by the Bidder to provide services, where the amount of compensation, when converted to a per diem or hourly rate (as applicable), is equal to or less than the rate bid for that resource category.

Once Canada requests substantiation of the prices bid, it is the sole responsibility of the Bidder to submit information (either the information described in the examples above, or other information that demonstrates that it will be able to

recover its own costs based on the prices it has proposed) that will allow Canada to determine whether it can rely, with confidence, on the Bidder's ability to provide the required services at the prices bid, while, at a minimum, recovering its own costs. Where Canada determines that the information provided by the Bidder does not demonstrate the Bidder's ability to recover its own costs in providing the prices bid, Canada may, at their sole discretion declare the bid non-compliant.

## **7.0 MANDATORY CLAUSES**

7.1 Where the words “**must**”, “**shall**” or “**will**” appear in this RFQ, the clause is to be considered as a mandatory requirement.

Bidders should make the request to the Contracting Authority within the timeframe specified in the contract award notice. The debriefing may be in writing, by telephone or in person at the discretion of the Contracting Authority.

## **9.0 OFFICE OF THE PROCUREMENT OMBUDSMAN**

**Genomic Sequencing of Dry Bean and Soybean Genetic Mapping Populations for the Morden Research and Development Centre**

**1. Background**

The Morden Research and Development Centre Dry Bean Breeding program is applying molecular genetics technologies, including whole genome sequencing, identification of single nucleotide polymorphism (SNP), and use for genetic (QTL) mapping of agronomic traits including disease resistance and various seed quality traits. Molecular markers associated with the traits will be developed and used for marker assisted breeding selections.

To meet our research goals we need genomic sequencing of whole genomes of dry beans (*Phaseolus vulgaris*) and soybeans (*Glycine max*) breeding lines and cultivars, as well as SNP calls and subsequent filtering and analysis. This technology is currently not available at our research facility. Entering a contract for these services will enable AAFC to continue meeting the goals of discovering new genes and generating new knowledge for crop breeding and genetic research, and fulfill the research responsibilities under the Canadian Agricultural Partnership (CAP) Pulse and Soybean Clusters.

**2. Objective**

AAFC requires the services of a Contractor to provide whole genomic sequencing of dry beans (*Phaseolus vulgaris*) and soybeans (*Glycine max*). The Contractor will be required to provide the labour, equipment, supplies and lab space necessary to conduct library preparation, sequencing and data processing of DNA samples provided by AAFC.

**3. Scope of Work**

AAFC will prepare the dry bean and soybean DNA samples, with the amount and quality as instructed by the resulting Contractor to undertake the genomic sequencing.

AAFC expects sequencing may be required up to **three times per year** with sample sets of varying size (several dozen to several hundred) submitted each time.

The Contractor shall conduct whole genome sequencing of the bean samples as follows:

**1. GBS library creation/preparation**

- Sample quality control
- DNA plate preparation
- GBS library preparation with *ApeK1* for Illumina with size selection or sequencing on ion proton

## 2. **Sequencing**

- Library quality control
- MiSeq system (e.g. Illumina HiSeq 4000SR 100 sequencing lane or other sequencing methodologies that can generate similar or better sequence data for SNP identification)
- Or Sequencing on ion proton
- Or NextSeq high output sequencing

## 3. **SNP calling /GBS data processing**

- Alignment to reference genome
- SNP discovery for each line
- Online download of reads, alignments, SNPs and allele counts

## 4. **Deliverables**

Sequencing and SNP data for each project shall be delivered **within 8 weeks** of the Contractor receiving the DNA sample(s) from AAFC. Each sample submission shall be invoiced separately upon completion of the work.

## 5. **Duration**

From the **Date of Contract Award to March 31, 2021** (which includes invoicing for any work completed during this timeframe), with an option to extend for up to Two (2), additional One (1) year options.

## 6. **Contractor Responsibility**

The Contractor will be responsible to provide status updates to the AAFC Project Authority or Designate by email or telephone to discuss methodologies, timelines, progress, issues, etc., as they arise during the Work.

## 7. **AAFC Responsibility and Support**

AAFC is responsible to provide the dry bean and soybean DNA samples to the Contractor for the Work.

All costs to ship these samples to the Contractors lab will be AAFC's responsibility.

## **BASIS OF PAYMENT**

## **APPENDIX C**
