Part 2. Questions and Answers

The following question(s) have been asked in response to the Request for Proposal and Elections Canada hereby answers as follows:

2.1 Question No. 19

Question:

We were unable to find a manufacturer capable producing a roll on a 1" core, nor a 1.5" core. However, we are able to transfer the tape to a 1" core. The result is that the tape is crinkled. We have been advised that the appearance of the product does not influence quality. Please indicate if this product is acceptable. We can send samples.

Answer:

This would be acceptable only if the final product conforms to the measurements in the specifications, and the quality of the adhesive and usability are not affected in the spooling process. Samples will be required by the winning bidder.
